Case Study Research and Applications Robert K. Yin, 2017-09-27 Recognized as one of the most cited methodology books in the social sciences, the Sixth Edition of Robert K. Yin's bestselling text provides a complete portal to the world of case study research. With the integration of 11 applications in this edition, the book gives readers access to exemplary case studies drawn from a wide variety of academic and applied fields. Ultimately, *Case Study Research and Applications* will guide students in the successful design and use of the case study research method. New to this Edition Includes 11 in-depth applications that show how researchers have implemented case study methods successfully. Increases reference to relativist and constructivist approaches to case study research, as well as how case studies can be part of mixed methods projects. Places greater emphasis on using plausible rival explanations to bolster case study quality. Discusses synthesizing findings across case studies in a multiple-case study in more detail Adds an expanded list of 15 fields that have text or texts devoted to case study research. Sharpens discussion of distinguishing research from non-research case studies. The author brings to light at least three remaining gaps to be filled in the future: how rival explanations can become more routinely integrated into all case study research; the difference between case-based and variable-based approaches to designing and analyzing case studies; and the relationship between case study research and qualitative research.

Case Study Research Robert K. Yin, 2009 Providing a complete portal to the world of case study research, the Fourth Edition of Robert K. Yin's bestselling text *Case Study Research* offers comprehensive coverage of the design and use of the case study method as a valid research tool. This thoroughly revised text now covers more than 50 case studies (approximately 25% new), gives fresh attention to quantitative analyses, discusses more fully the use of mixed methods research designs, and includes new methodological insights. The book's coverage of case study research and how it is applied in practice gives readers access to exemplary case studies drawn from a wide variety of academic and applied fields. Key Features of the Fourth Edition Highlights each specific research feature through 44 boxed vignettes that feature previously published case studies Provides methodological insights to show the similarities between case studies and other social science methods Suggests a three-stage approach to help readers define the initial questions they will consider in their own case study research Covers new material on human subjects protection, the role of Institutional Review Boards, and the interplay between obtaining IRB approval and the final development of the case study protocol and conduct of a pilot case

Includes an overall graphic of the entire case study research process at the beginning of the book, then highlights the steps in the process through graphics that appear at the outset of all the chapters that follow Offers in-text learning aids including “tips” that pose key questions and answers at the beginning of each chapter, practical exercises, endnotes, and a new cross-referencing table Case Study Research, Fourth Edition is ideal for courses in departments of Education, Business and Management, Nursing and Public Health, Public Administration, Anthropology, Sociology, and Political Science.

Doing Research in the Real World David E Gray, Eric A. Jensen, 2025-11-28 If your focus is real world research, this book will provide you with an easy-to-follow, step-by-step guide to planning, delivering, and communicating it successfully. Allowing you to see research in action, this book uses real-world case studies from a wide range of disciplines and global markets, encouraging you to apply best practice to your own work. There is step-by-step guidance on quantitative, qualitative and mixed research methods to introduce you to the intricacies of real-world research. The sixth edition: · Integrates digital and face-to-face methods to reflect a changing world; · Reveals the reality of methods and not just the theories behind them; · Prepares you for your studies with detailed, practical advice. Accompanied online by a wealth of handpicked tools and resources to help you avoid common pitfalls and learn key skills, this complete guide is still the definitive research companion for you.

Qualitative Research Stephen D. Lapan, MaryLynn T. Quartaroli, Frances J. Riemer, 2011-11-09 The authors—noted scholars and researchers—provide an up-to-date guide to qualitative study design, data collection, analysis, and reporting. Step by step, the authors explain a range of methodologies and methods for conducting qualitative research focusing on how they are applied when conducting an actual study. The book includes methods of data collection, specific approaches to qualitative research, and current issues in the field. Specifically, chapters cover the methods, designs, and analyses related to the methodologies of history, case study, program evaluation, ethnography, autoethnography, narrative, life histories, emancipatory discourses, feminist perspectives, African American inquiry, indigenous studies, and practitioner qualitative research.

Thieme Almanac 2008 Thieme, 2007-10-10 It's a yearbook. It's a scientific publication. It's the Thieme Almanac! The Thieme Almanac: Acupuncture and Chinese Medicine addresses all the aspects of Chinese Medicine in an exciting collection of articles from around the globe. Its almost 500 pages include a wide range of information such as: clinical articles, research findings, an international survey of educational programs, contributions on laws and regulations related to the field, aims and principles of societies and organizations, historical and cultural perceptions, book reviews, meeting reports, and a calendar

of upcoming events. The articles cover such diverse topical subjects as what is shen?, a review of RCTs in China, the treatment of hepatitis C and chronic liver disease with Sho-Saiko-To, acupuncture in cancer treatment, neural therapy in developing countries, translation issues, case histories in veterinary medicine, and the development of Chinese medicine around the globe. This international forum for the exchange of ideas, information, and resources offers the field of acupuncture and Chinese medicine a voice and strengthens cooperation and communication among those working or studying in this field. Students, teachers, and practitioners alike will delight in this unique blend of theoretical and clinical pieces. The international team of editors: Stephen Birch, Michael McCarthy, Chris Dhaenens, Celine Leonard, Jane Lyttleton, Felicity Moir, Elisabeth Rochat de la Valle, Velia Wortman Chow, Yuhuan Grant.
