Growing Seasons Kristin Johns, 2023-11-28 Pull up a chair and gather in close with entrepreneur and content creator Kristin Johns as she shares her best-kept secrets: mouthwatering recipes, design inspiration, and ways we all can grow, celebrate, and find nourishment in every season of life. Kristin Johns long dreamed of putting together a book of favorite recipes, ideas for interiors, and reflections on faith, family, and love. *Growing Seasons* is a gorgeously photographed collection of stories, recipes, and inspiration that encourages us to step into each day with courage and authenticity, and to embrace every season of life. Just as each month has its own specific character, each season of life has its own unique challenges and opportunities, all with valuable life lessons to teach us. Walking through the calendar year from January to December, the book's twelve chapters feature: Kristin's favorite recipes like Christmas Morning Sourdough Cinnamon Rolls, CeCe's Famous Cajun Gumbo, a Sunny Citrus Kale Salad and, of course, Kristin's famous Chocolate Chunk Cookie recipe. Creative projects such as Rustic Hand Dyed Linens, DIY Lavender Blue Tansy Skin Serum, and five easy tricks to minimize clutter and maximize coziness at home. Fun ideas to entertain and connect with others through Summer Getaway Essentials and a guide to movie night at home complete with homemade pizza and caramel corn. Whether you're looking for adventure or a chill night at home, *Growing Seasons* will meet you where you are and inspire where you are going.

Gray Matters Theodore H. Schwartz, 2024-08-13 "If you are at all curious about the brain or the surgeons who operate on it, *Gray Matters* is a must read and Dr. Theodore Schwartz is the perfect guide, a master brain surgeon and superbly talented writer. I have not read a better biography of our shared profession, and in Schwartz's talented hands, the most enigmatic 3 1/2 pounds of tissue in the known universe comes to light in remarkable and revelatory ways." —Dr. Sanjay Gupta, CNN Chief Medical Correspondent, and New York Times and #1 Wall Street Journal bestselling author of *Keep Sharp: Build a Better Brain at Any Age*. A popular biography of brain surgery, by one of its preeminent practitioners. We've all heard the phrase "it's not brain surgery." But what exactly is brain surgery? It's a profession that is barely a hundred years old and profoundly connects two human beings, but few know how it works, or its history. How did early neurosurgeons come to understand the human brain—an extraordinarily complex organ that controls everything we do, and yet at only three pounds is so fragile? And how did this incredibly challenging and lifesaving specialty emerge? In this warm, rigorous, and deeply insightful book, Dr. Theodore H. Schwartz explores what it's like to hold the scalpel, wield the drill, extract a tumor, fix a

bullet hole, and remove a blood clot—when every second can mean life or death. Drawing from the author's own cases, plus media, sports, and government archives, this seminal work delves into all the brain-related topics that have long-consumed public curiosity, like what really happened to JFK, President Biden's brain surgery, and the NFL's management of CTE. Dr. Schwartz also surveys the field's latest incredible advances and discusses the philosophical questions of the unity of the self and the existence of free will. A neurosurgeon as well as a professor of neurosurgery at Weill Cornell Medicine, one of the busiest and most highly ranked neurosurgery centers in the world, Dr. Schwartz tells this story like no one else could. Told through anecdote and clear explanation, this is the ultimate cultural and scientific history of a literally mind-blowing human endeavor, one that cuts to the core of who we are.

Attempt to Uproot Sunni-Arab Influence Nabil Khalifé, 2017-01-24 In the aftermath of popular uprisings that unleashed the quest for freedom, Arab governments scrambled to limit sectarian divisions, though much of these efforts came to naught. Regrettably, weak governments fell into carefully laid traps, aimed to divide and rule. Protracted wars further destroyed Arab wealth and cohesiveness, and Sunni communities saw their power bases marginalised. On cue, and predicted by some commentators, extremist movements like the so-called Islamic State emerged, targeting Sunnis with extreme violence. In 2014 Nabil Khalife, an established Lebanese thinker, published a widely praised thesis that identified the root causes of renewed sectarian tensions at a time when confrontations polarised awakened Arab societies. Based on an extensive discussion of the 1979 Iranian Revolution that toppled the Shah, Khalife advanced the notion that the revolution was not Islamic but an Iranian-Shiah rebellion that ended the Pahlavi military monarchy, and that the post-2011 Sunni-Shiah struggle was planned by leading Western powers, including Russia, to preserve Israel and impose the latter's acceptance in the Middle East as a natural element. In this translation of *Istihdaf Ahl al-Sunna* [Targeting Sunnis], Joseph A. Kechichian analyses the fundamental questions raised by the author to better place the current sectarian collision in a geo-strategic global perspective. Based on the books' avowals of how the world's three monotheistic religions perceive each other and Political Sunnism, Kechichian assesses Henry Kissinger's famous appellation of the Middle World that houses significant and indispensable oil resources, and why that allegedly makes it -- Political Sunnism -- dangerous. In a comprehensive introduction to the translation, he describes various initiatives that led global powers to check the undeniable force of Political Sunnism.
