Walker,2021-11-29 An invaluable contribution to the area of leadership studies, the Handbook of International and Cross-Cultural Leadership Research Processes: Perspectives, Practice, Instruction brings together renowned authors with diverse cultural, academic, and practitioner backgrounds to provide a comprehensive overview and analysis of all stages of the research process. The handbook centers around authors' international research reflections and experiences, with chapters that reflect and analyze various research experiences in order to help readers learn about the integrity of each stage of the international leadership research process with examples and discussions. Part III is forward-looking in preparing readers to respond to complex realities of the leadership field: teaching, learning, publishing, and applying international and cross-cultural leadership research standards with integrity. The handbook is an excellent resource for a broad audience including scholars

across disciplines and fields, such as psychology, management, history, cognitive science, economics, anthropology, sociology, and medicine, as well as educators, consultants, and graduate and doctoral students who are interested in understanding authentic leadership practices outside of the traditional Western paradigm.
