Al-Jazeera's "Double Standards" in the Arab Spring Zainab Abdul-Nabi, 2022-12-14 This book finds that Al-Jazeera's coverage of Bahrain and Syria has conformed with Qatar's foreign policy, throughout the last decade (2011-2021). Al-Jazeera Arabic adopted Qatar's "double standards" policy in both countries in the beginning of the Arab Spring, framing Bahrain's protests as a "sectarian movement," while depicting the Syrian armed conflict as a legitimate "revolution" (2011-2013). The book observes that when ties between Qatar and Bahrain worsened during the 2017 Gulf crisis, Al-Jazeera Arabic has shifted its coverage from being "pro-Bahraini regime" to "pro-protesters," focusing on violations and giving voice to activists (2014-2021). The book concludes that the lack of "Peace Journalism" framing in Al-Jazeera's coverage of Bahrain's uprising and Syria's chemical weapons attacks has represented "claims" as "facts," and justified military action against Syria. It also reveals distinctive differences between Al-Jazeera Arabic and English, with the former lacking "objective reporting standards," and using more sectarian language than the latter.

Everyday Arab Identity Christopher Phillips, 2013 Whether through government propaganda or popular transnational satellite television channels, Arab citizens encounter a discourse that reinforces a sense of belonging to their own state and a broader Arab world on a daily basis. Looking through the lens of nationalism theory, this book examines how and why Arab identity continues to be reproduced in today's Middle East, and how that Arab identity interacts with strengthening ties to religion and the state. Drawing on case studies of two ideologically different Arab regimes, Syria and Jordan, Christopher Phillips explores both the implications this everyday Arab identity will have on western policy towards the Middle East and its real life impact on international relations. Offering an original perspective on this topical issue, this book will be of interest to academics and practitioners working on the Arab world and political affairs, as well as students of International Relations, Political Science and the Middle East, notably Syria and Jordan, and policymakers in the region.

Al Jazeera Phenomenon Mohamed Zayani, 2019-05-23 Few phenomena in the Arab world are more controversial than Al Jazeera - the satellite television news channel that, despite its brief history, has made its impact known throughout the world and changed the face of a formerly parochial Arab media. This timely collection of articles, many by Arabic-speaking scholars, gives us more information and analysis of the network - and how it has affected the public and even the foreign policies of Western governments - than any other of the very few books published in English up to now. The book provides rare insights

into Al Jazeera's politics, its agenda, its programs, its coverage of regional crises, and its treatment of the West. The authors attempt to gauge the station's impact on ordinary Arab viewers, understand its effect on an increasingly visible Arab public sphere, and map out the role it plays in regional Arab politics. The image of Al Jazeera that emerges from this book is much more complex than its depiction in American media. It reveals the powerful role that the network plays in shaping ideas and reconstructing Arab identities during a crucial juncture in Middle Eastern history and politics.

Digital Media and Democracy Megan Boler, 2010-08-13 Media scholars, artists, activists, and journalists discuss how the uses of the emerging "Social Web" redefine the public sphere and influence mainstream journalism. In an age of proliferating media and news sources, who has the power to define reality? When the dominant media declared the existence of WMDs in Iraq, did that make it a fact? Today, the "Social Web" (sometimes known as Web 2.0, groupware, or the participatory web)—epitomized by blogs, viral videos, and YouTube—creates new pathways for truths to emerge and makes possible new tactics for media activism. In *Digital Media and Democracy*, leading scholars in media and communication studies, media activists, journalists, and artists explore the contradiction at the heart of the relationship between truth and power today: the fact that the radical democratization of knowledge and multiplication of sources and voices made possible by digital media coexists with the blatant falsification of information by political and corporate powers. The book maps a new digital media landscape that features citizen journalism, *The Daily Show*, blogging, and alternative media. The contributors discuss broad questions of media and politics, offer nuanced analyses of change in journalism, and undertake detailed examinations of the use of web-based media in shaping political and social movements. The chapters include not only essays by noted media scholars but also interviews with such journalists and media activists as Amy Goodman of *Democracy Now!*, *Media Matters* host Robert McChesney, and Hassan Ibrahim of Al Jazeera. Contributors and Interviewees Shaina Anand, Chris Atton, Megan Boler, Axel Bruns, Jodi Dean, Ron Deibert, Deepa Fernandes, Amy Goodman, Brian Holmes, Hassan Ibrahim, Geert Lovink, Nathalie Magnan, Robert McChesney, Graham Meikle, Susan Moeller, Alessandra Renzi, Ricardo Rosas, Trebor Scholz, D. Travers Scott, Rebecca Statzel

Who Owns the World's Media? Eli M. Noam, 2016 *Who Owns the World's Media?* moves beyond the rhetoric of free media and free markets to provide a dispassionate and data-driven analysis of global media ownership trends and their drivers. Based on an extensive data collection effort from scholars around the world, the book covers 13 media industries, including television, newspapers, book publishing, film, search engines, ISPs, wireless telecommunication and others, across a 10-25 year period in 30 countries.

American Government Karen O'Connor,Larry Sabato,2008 Guided by the belief that students must first understand how American government developed to fully understand the issues facing the United States in the 21st century, O'Connor/Sabato offers the strongest coverage of both history and current events of any college textbook devoted to American politics. This best-selling book provides the historical context students need to understand American government and the most crucial and controversial issues affecting the nation. O'Connor/Sabato has been extensively revised to provide the most in-depth and current coverage of the 2006 midterm elections, the second George W. Bush administration, the Iraq War, and increasing controversies related to the conduct of the war on terrorism, including renewed calls for additional congressional oversight of the Executive Branch. The new edition also emphasizes the extent to which shared American values shape and affect policy and influence key political conflicts.
