Beyond Books and Borders Raquel Chang-Rodríguez, 2006 *La Florida del Inca* (Lisbon, 1605) is a key text in the history and culture of the Americas. In this chronicle, its author, Inca Garcilaso de la Vega, born in Cuzco, the son of an Inca princess and a Spanish conquistador, offers a unique representation of Hernando de Soto's expedition (1539-43) to the vast territory then known as La Florida. The studies collected here analyze the period of early contact in La Florida, study the chronicle of the Cuzcan writer and the works that influenced it, with the objective of affirming its central place in colonial, cultural, and transatlantic studies and its importance in understanding the intertwined history of the Americas. An introduction, a chronology, a general bibliography, and fifty-six images offer a frame for these sections. The various essays are written in a direct manner, and are free of jargon with the aim of attracting both general and academic readers. Raquel Chang-Rodríguez is Distinguished Professor of Hispanic Literature and Culture at the City University of New York.

The Florida of the Inca Garcilaso Vega, 2010-06-28 "Great endurances and deeds were surviving treasures for the soul that marched with DeSoto, and this book is their richest storehouse." -The New York Times Book Review Perhaps the most amazing thing of all about Garcilaso de la Vega's epic account of the De Soto expedition is the fact that, although it is easily the first great classic of American history, it had never before received a complete or otherwise adequate English translation in the 346 years which have elapsed since its publication in Spanish. Now the Inca's thrilling narrative comes into its own in the English-speaking world. Hernando de Soto's expedition for the conquest of North America was the most ambitious ever to brave the perils of the New World. Garcilaso tells in remarkably rich detail of the conquistadors' wanderings over half a continent, of the unbelievable vicissitudes which beset them, of the indigenous people whom they sought to win for King and Church and by whose hands most of them died, of De Soto's death, and of the final pitiful failure of the expedition. "When you regretfully lay aside this extraordinary volume and add it to your shelf of favorite titles, you will appreciate the tremendous adventure into history which you have had." -San Francisco Examiner "A distinguished and beautiful book, greatly translated." -New York Herald Tribune "A marvelous and important adventure story, admirably translated, skillfully edited, and most beautifully printed. It is a sensational first book for the University of Texas Press and should be a best seller in its class." -Herbert E. Bolton, leading authority on Spanish explorations in the Americas

La Florida Del Inca and the Struggle for Social Equality in Colonial Spanish America Jonathan D. Steigman,2005-09-25 A cross-disciplinary view of an important De Soto chronicle. Among the early Spanish chroniclers who contributed to popular images of the New World was the Amerindian-Spanish (mestizo) historian and literary writer, El Inca Garcilaso de la Vega (1539-1616). He authored several works, of which *La Florida del Inca* (1605) stands out as the best because of its unique Amerindian and European perspectives on the De Soto expedition (1539-1543). As the child of an Indian mother and a Spanish father, Garcilaso lived in both worlds--and saw value in each. Hailed throughout Europe for his excellent contemporary Renaissance writing style, his work was characterized as literary art. Garcilaso revealed the emotions, struggles, and conflicts experienced by those who participated in the historic and grandiose adventure in La Florida. Although criticized for some lapses in accuracy in his attempts to paint both the Spaniards and the Amerindians as noble participants in a world-changing event, his work remains the most accessible of all the chronicles. In this volume, Jonathan Steigman explores El Inca's rationale and motivations in writing his chronicle. He suggests that El Inca was trying to influence events by influencing discourse; that he sought to create a discourse of tolerance and agrarianism, rather than the dominant European discourse of intolerance, persecution, and lust for wealth. Although El Inca's purposes went well beyond detailing the facts of De Soto's entrada, his skill as a writer and his dual understanding of the backgrounds of the participants enabled him to paint a more complete picture than most--putting a sympathetic human face on explorers and natives alike.

La Florida Del Inca and the Florida of the Others: The Multilingual Afterlives of Garcilaso's Florida Jennifer Marie Forsythe,2019 This dissertation examines three centuries of French and English translations of Peruvian historian Inca Garcilaso de la Vega's *La Florida del Inca* (1605), an account of the Hernando de Soto expedition (1539-1544) across present-day Cuba, the southeastern United States, and Mexico. Garcilaso's history stands out from the work of other Renaissance and early modern Hispanophone historians because he devotes more than half his text to narrating the words and actions of the

Indigenous people he imagines based on written and oral eyewitness accounts of the expedition from Spanish soldiers. Early French and English translations of this work were printed at nearly four times the rate of Spanish editions, but they have been overlooked partly because they don't conform to contemporary translation conventions and because some translators choose to present their recreations of Garcilaso's text as their own original work. Analyzing the work of the translators, printers, booksellers, engravers, and other scholars and artisans who move Garcilaso's text across spaces and audiences reveals that Garcilaso had a much greater role in shaping perceptions of American people, history, and space in Francophone and Anglophone traditions than has previously been imagined. The dissertation begins with an overview of the geopolitical factors and print cultures that spurred the movement of *La Florida del Inca* and its translations across early modern and nineteenth-century Atlantic worlds. It then presents detailed case studies of the work of several important translators in the history of *La Florida del Inca*'s Francophone and Anglophone afterlives: Pierre Richelet (1626-1698), Jean-Frédéric Bernard (1680-1744), and Theodore Irving (1809-1880). Taken separately, their translations redefine the parameters of Florida and negotiate relationships of identification, antipathy, and forgetfulness with the European and Indigenous figures described in the source text. Taken together, their translations illuminate alternatives to the omissions and silences imposed on Garcilaso's text during its long reception history and produce invigorated, engaged readings of *La Florida del Inca*.

Narratives of the Career of Hernando de Soto in the Conquest of Florida Edward Gaylord Bourne, 1904

Indian Captivity in Spanish America Fernando Operé, 2008 Even before the arrival of Europeans to the Americas, the practice of taking captives was widespread among Native Americans. Indians took captives for many reasons: to replace—by adoption—tribal members who had been lost in battle, to use as barter for needed material goods, to use as slaves, or to use for reproductive purposes. From the legendary story of John Smith's captivity in the Virginia Colony to the wildly successful

narratives of New England colonists taken captive by local Indians, the genre of the captivity narrative is well known among historians and students of early American literature. Not so for Hispanic America. Fernando Operé redresses this oversight, offering the first comprehensive historical and literary account of Indian captivity in Spanish-controlled territory from the sixteenth to the twentieth century. Originally published in Spanish in 2001 as *Historias de la frontera: El cautiverio en la América hispánica*, this newly translated work reveals key insights into Native American culture in the New World's most remote regions. From the happy captivity of the Spanish military captain Francisco Nuñez de Pineda y Bascuñán, who in 1628 spent six congenial months with the Araucanian Indians on the Chilean frontier, to the harrowing nineteenth-century adventures of foreigners taken captive in the Argentine Pampas and Patagonia; from the declaraciones of the many captives rescued in the Rio de la Plata region of Argentina in the seventeenth and eighteenth centuries, to the riveting story of Helena Valero, who spent twenty-four years among the Yanomamö in Venezuela during the mid-twentieth century, Operé's vibrant history spans the entire gamut of Spain's far-flung frontiers. Eventually focusing on the role of captivity in Latin American literature, Operé convincingly shows how the captivity genre evolved over time, first to promote territorial expansion and deny intercultural connections during the colonial era, and later to romanticize the frontier in the service of nationalism after independence. This important book is thus multidisciplinary in its concept, providing ethnographic, historical, and literary insights into the lives and customs of Native Americans and their captives in the New World.

Florida Studies Paul D. Reich, 2012-11-30 This volume contains a variety of essays about Florida literature and history by scholars from across the state representing every kind of institution of higher learning, from community colleges to small liberal arts institutions to large universities. The essays in the first section, Pedagogy, focus on the college classroom and the challenges facing institutions of higher learning in Florida. The essays in Old Florida explore a number of writers - including Zora Neale Hurston, Jack Kerouac, and Williams S. Burroughs - who, at various points in their careers, called Florida home. The final section, Contemporary Florida, continues to identify the state's place within larger literary, cultural, and political traditions.
