**Guía de Supervivencia Fiscal para Emprendedores** Rafael Morales, Amparo Rodríguez, 2022-09-23 Si eres emprendedor y quieres poner en marcha tu negocio, tienes que cumplir una serie de obligaciones para poder realizar tu actividad. Pero esta tarea no siempre es sencilla. La normativa tributaria y fiscal en España es bastante enrevesada, a menudo no es fácil encontrar respuestas fáciles para las preguntas que surgen en el día a día y los formularios y procesos que hay que rellenar a veces no se entienden con claridad. ¿Que tienes que poner en las facturas que emites? ¿Cómo sabes en qué epígrafes de actividad tienes que darte de alta? ¿Cada cuánto tiempo tienes que presentar la declaración de IVA? ¿Y la de IRPF? ¿Y la de operaciones con terceros? ¿Qué gastos te puedes desgravar? ¿Es obligatorio pagar la cuota de autónomo aunque no factures el SMI? ¿Qué tienes que hacer si cometes un error? Estas cuestiones, y muchas más, se repiten una y otra vez todos los días en todos los rincones de España, por parte de gente, como tú, que tiene la ilusión de llevar su negocio adelante, pero no tiene un conocimiento claro de sus obligaciones fiscales o dónde encontrar información fiable. Amparo Rodríguez y Rafael Morales han unido más de 20 años de experiencia cada uno, como asesora fiscal y laboral la primera y experto en gobierno corporativo el segundo, para dar respuesta a esas preguntas que se hace todo emprendedor, autónomo o gerente de una PYME: ¿Cómo sobrevivir al alta de actividad, al IVA, a la facturación, al IRPF y a las asesorías Low Cost? Esta Guía de Supervivencia Fiscal y Tributaria para Emprendedores será uno de los libros que consultes más a menudo para resolver dudas, para que puedas centrarte en lanzar y potenciar tu negocio y dejes de preocuparte.

**Los herederos de Fujimori** José Alejandro Godoy, 2022-08-01 El periodista José Alejandro Godoy regresa con un nuevo libro después de El último dictador. En Los herederos de Fujimori, nos presenta una exhaustiva investigación bibliográfica y periodística sobre la vida política de sus dos descendientes y otros personajes de la política peruana. En el contundente El último dictador, José Alejandro Godoy elaboró un relato pormenorizado de la larga década de autoritarismo, violencia y corrupción que tuvo como protagonista a Alberto Fujimori. En esta ocasión, la tarea emprendida en Los herederos de Fujimori es todavía más ambiciosa: abarcar más de veinte años de historia política que, inevitablemente, han estado marcados a sangre y fuego por el linaje de nuestro último dictador. Mediante un exhaustivo trabajo de investigación bibliográfica y periodística, Godoy recorre un vertiginoso período de la historia peruana en el que la herencia fujimorista no

solo se ha manifestado en la omnipresencia de dos de sus descendientes en la vida política del país, sino también en los modales (poco) democráticos, las fórmulas populistas y la propensión a los escándalos —de toda índole— que caracterizaron los mandatos de prácticamente todos sus sucesores en Palacio de Gobierno. Alejandro Toledo, Alan García, Ollanta Humala, Martín Vizcarra, Pedro Pablo Kuczynski y Keiko Fujimori son algunos de los personajes recurrentes en esta historia, pero no los únicos. Entre desastres naturales (y de los otros), presidencias trucas, sobornos millonarios, asilos, indultos y carcerelerías de alto vuelo, queda claro que el Perú es un territorio signado por la incombustible flama de un tambaleante quehacer político. Este libro recupera la memoria de los últimos años, y revela un país que aún lucha por encontrar un mejor destino.

*Química 3 Méndez Méndez Vidal, Yuridia, Alfaro Fuentes, Israel, López Sandoval, Horacio Clemente, 2014-08-01 Ciencias 3 Química (Méndez)* Patria es una obra que parte de la idea de que el aprendizaje de las ciencias implica un modo de entender el mundo: es una oportunidad de plantearse preguntas y proponer respuestas basadas en saberes comprobables, que proporcionan elementos confiables para tomar decisiones respecto al bienestar propio, de la sociedad y del ambiente. Mediante el planteamiento de los contenidos con un tratamiento didáctico que apoye el logro de los aprendizajes esperados, esta obra tiene el propósito fundamental de ofrecer a los adolescentes una herramienta para reconocer la ciencia, específicamente la química, como una actividad humana en permanente investigación e innovación. Por ello se espera que la obra conduzca al alumnado a usar los conocimientos adquiridos para participar en el mejoramiento de su calidad de vida, a partir de la toma de decisiones orientada a la promoción de la salud y el cuidado del ambiente, la comprensión de fenómenos naturales y de los alcances de la ciencia y la tecnología. Las diversas actividades de Ciencias 3 Química están diseñadas para que los estudiantes integren y apliquen sus conocimientos, habilidades y actitudes en la solución de situaciones problemáticas de su vida cotidiana; asimismo, se incluyen actividades experimentales que pueden realizarse con materiales fáciles de conseguir, y están planeadas para proporcionar su creatividad, estimular su curiosidad, su capacidad de análisis y de reflexión; además de acercarlos a su entorno y al trabajo colaborativo.

**TELOS 97** Jorge Pérez Martínez (Coord.), Zoraida Frías Barroso (Coord.), 2014-05-01 El autor invitado de esta entrega de TELOS ejemplifica bien, en su biografía y en el contenido de su texto, el salto adelante experimentado por buena parte de América Latina en cuanto a la extensión y la apropiación de las Tecnologías de la Información y la Comunicación (TIC). Germán Rey, avezado investigador en cultura y comunicación, es en efecto, director del centro Attico de Bogotá (Universidad Javeriana), un vivero de innovación abierto a todo tipo de creadores; y en su artículo no solo analiza los cambios sorprendentes de equipamiento de la población colombiana en la última década sino, sobre todo, la transformación inducida en las prácticas culturales y comunicativas de los colombianos en lo que se va constituyendo como un auténtico nuevo ecosistema digital. El otro plato fuerte de este número es el Dossier Central, dedicado al debate trasatlántico sobre la privacidad, la seguridad y la innovación en Internet. Por encima de la pasajera actualidad de los escándalos políticos

recientes sobre este asunto, el profesor Jorge Pérez Martínez (Universidad Politécnica de Madrid, Consejero de Telos desde sus inicios), con su larga experiencia en la investigación y en la gestión de las Tecnologías de la Información, y Zoraida Frías (de la misma Universidad) han sabido lanzar y coordinar un call for papers que apunta hacia el medio y largo plazo: a la diversa regulación de la privacidad en las redes según filosofías jurídicas muy diferentes que dialogan necesariamente en un mundo global; y hacia la conformación de una regulación europea que afronta estos retos esenciales con fidelidad a su tradición de defensa de las libertades y los derechos humanos, pero que al mismo tiempo pueden darle ventajas competitivas en sus modelos de negocio ante usuarios cada vez más conscientes de la seguridad y la privacidad de sus datos.
