Pedagogía red Begoña Gros Salvat, Cristóbal Suárez Guerrero, 2017-03-01 Esta publicación ofrece un conjunto de análisis y propuestas sobre el reto de entender internet como una oportunidad para la formación y el aprendizaje. El aprendizaje no es aséptico respecto a su entorno, y es necesario pensar dónde está el cambio educativo en internet. Efectivamente, ni los recursos, ni los flujos de comunicación, ni el lenguaje, ni las dinámicas de interacción social son las mismas en las aulas tradicionales que en la red. Por ello, ¿qué sucede cuando internet empieza a formar parte de la visión del aprendizaje y de la educación? Ese es el interrogante que motiva las preguntas que nos planteamos a lo largo de los ocho capítulos que integran este libro: ¿por qué aprender en red?, ¿qué, cómo aprender, con qué y con quién aprender en red?, ¿dónde y cuándo aprender en red? y ¿cómo valorar lo que se aprende en la red? El conjunto de expertos que ha participado en la obra intenta dar respuesta a estos interrogantes a través de reflexiones, propuestas prácticas y ejemplos. Este libro está dirigido a docentes y profesionales del ámbito educativo interesados en conocer los cambios que supone el uso de internet en la formación y el aprendizaje.

Ecosistema de pedagogía digital para fortalecer modelos educativos basados en el uso de tecnología Lorena Yadira

Alemán de la Garza,2024-06-06 La incorporación de las Tecnologías de la Información y las Comunicaciones en la educación han tenido una evolución vertiginosa en las últimas décadas: iniciando de manera limitada en universidades y centros de investigación en los años 70 y 80, ha ido incrementando su uso a partir de la década de los 90 con el aumento de la accesibilidad a internet y a las computadoras personales. Ya en el Siglo XXI, el desarrollo de software educativo y la incorporación de computadoras en las aulas, sumada a la expansión de internet, apoyada por gobiernos y fomentada por la gestión de instituciones educativas, las llamadas “Tecnologías de la Información y las Comunicaciones” (TIC) se transformaron en una parte sustancial en los procesos de enseñanza-aprendizaje.
