

Operation Phantom Fury Fallujah

Richard S. Lowry

Operation Phantom Fury Dick Camp, 2009-12-15 The Second Battle for Fallujah, dubbed Operation Phantom Fury, took place over an almost two-month period, from November 7 to December 23, 2004. The Marine Corps' biggest battle in Iraq to date, it was so prolonged and fierce that it has entered the pantheon of USMC battles alongside Iwo Jima, Inchon, and Hue City. This book offers an in-depth, intimate look into Operation Phantom Fury, the single most significant battle undertaken during the occupation of Iraq. The author, a retired Marine Corps colonel with combat service in Vietnam, conducted personal interviews with combatants, from the division commander in charge of the operation down to Marine infantrymen who did the fighting. The result--illustrated with a hundred action photographs--is a rare firsthand account of the brutal reality of the war in Iraq, how this battle for a key city was fought, and how such a crucial battle looks from positions of command and from the thick of the fight.

U.S. Marines in Battle: Fallujah, November-December 2004 Timothy S. McWilliams, This is a study of the Second Battle of Fallujah, also known as Operation Al-Fajr and Operation Phantom Fury. Over the course of November and December 2004, the I Marine Expeditionary Force conducted a grueling campaign to clear the city of Fallujah of insurgents and end its use as a base for the anticoalition insurgency in western Iraq. The battle involved units from the Marine Corps, Army, and Iraqi military and constituted one of the largest engagements of the Iraq War. The study is based on interviews conducted by Marine Corps History Division field historians of battle participants and archival material. The book will be of primary interest to Marines, other service members, policy makers, and the faculty and students at the service schools and academies.

New Dawn Richard S. Lowry, 2010-05-10 This award-winning powerful narrative history presents a vividly detailed chronicle of grueling combat operations in Fallujah during the Iraq War (Midwest Book Review). Few places are as closely associated with blood, sacrifice, and valor as the ancient city Fallujah, forty miles west of Baghdad. This sprawling concrete jungle was the scene of two major U.S. combat operations in 2004. The first, Operation Vigilant Resolve, was an aborted effort by U.S. Marines to punish the city's insurgents. The second, Operation Phantom Fury, was launched seven months later. Also known as the Second Battle for Fallujah, Operation Phantom Fury was a protracted house-to-house and street-to-street conflict that began on November 7th and continued unabated for seven bloody weeks. It was the largest fight of Operation Iraqi Freedom and the heaviest urban combat since the Battle of Hue City, Vietnam in 1968. By the time the fighting ended, more than 1,400 insurgents were dead, along with ninety-five Americans (and another 1,000 wounded). In *New Dawn*, military historian Richard Lowry draws on archival research, as well as the personal recollections of nearly 200 soldiers and Marines who participated in the battles for Fallujah, from the commanding generals who planned the operations to the privates who kicked in the doors. The result is a gripping narrative of individual sacrifice and valor that also documents the battles for future military historians. The Second Battle of Fallujah Charles River Charles River Editors, 2018-02-21 *Includes pictures *Includes footnotes, online resources and a bibliography for further reading I am scared to death that they [the war hawks in Washington] are going to convince the president that they can do this overthrow of Saddam on the cheap, and we'll find ourselves in the middle of a swamp because we didn't plan to do it the right way. - Lawrence Eagleburger, former Secretary of State Some of the heaviest urban combat U.S. Marines have been involved in since the Battle of Hue City in Vietnam in 1968. - The U.S. military's description of the battle The city of Fallujah is located in Iraq's western Anbar Province, approximately 65 kilometers west of Baghdad, the country's capital. Its history, along with the history of Iraq (whose modern borders are part of what was once known as Mesopotamia), goes back thousands of years, and the country's modern history played a strong role in shaping the fighting in and around Fallujah in 2004. Moreover, as the name of the battle implies, no description of the fighting for Fallujah is as straightforward as it may sound. In fact, there have been multiple battles for Fallujah over a span of many years, including Operation Vigilant Resolve in April 2004 (also referred to as the First Battle of Fallujah), Operation Al Fajr and Operation Phantom Fury (the Second Battle of Fallujah, which commenced in November of the same year), the February 2014 capture of the city by the then-Islamic State of Iraq and al-Sham (ISIS, which later changed its name to Islamic State), and the 2016 Iraqi-led offensive to clear ISIS from the city. The most famous of these was certainly the Second

Battle, but no history about the fighting can focus solely on the events from November to December 2004, which covered the beginning and conclusion of the operations. In order to understand the offensive, it is important to understand the conditions that soldiers in combat faced, as well as the events and perceptions that helped create these conditions, including the attitudes of local residents in Fallujah, the events that contributed to the First Battle of Fallujah, the lead-up to the second battle, the ramifications for the rest of the country, and the creation of al-Qaeda in Iraq. Given the fact that fighting across Iraq is still ongoing over a decade later, it's safe to characterize the Second Battle of Fallujah had and continues to have a major influence over the evolution of the Iraq War. The Second Battle of Fallujah: The History of the Biggest Battle of the Iraq War looks at the battle widely considered to be the heaviest fighting of the conflict. Along with pictures of important people, places, and events, you will learn about the battle like never before.

Operation Iraqi Freedom Catherine Dale, 2011-04 Operation Iraqi Freedom (OIF), the U.S.-led coalition military operation in Iraq, was launched on March 20, 2003, with the goal of removing Saddam Hussein's regime and destroying its ability to use weapons of mass destruction. The focus of OIF has shifted from regime removal to helping the Gov't. of Iraq improve security, establish a system of governance, and foster economic development. This report addresses these policy issues: Identifying how U.S. national interests and strategic objectives, in Iraq and the region, should guide further U.S. engagement; Monitoring and evaluating the impact of the changes in the U.S. presence and role in Iraq; and Laying the groundwork for a traditional bilateral relationship. Just War in Religion and Politics Jacob Neusner, Bruce D. Chilton, R. E. Tully, 2013-04-18 The basis of this collection of essays is the reading of a common topic from different perspectives. Half of the book is devoted to the comparative study of religions and the courses are offered by religion professors. The other half is shaped by social science approaches and the seminars are given mainly by social science professors. We aim to compare and contrast not only positions, but also methods of learning. We examine theories of the just war in diverse cultural contexts and their disciplinary settings. Space is devoted to the study of papers prepared for this project by specialists in various disciplines, mainly but not exclusively faculty of Bard College and the United States Military Academy at West Point.

U. S. Marines in Iraq, 2004-2005 Kenneth W. Estes, 2011 Almost as soon as Saddam Hussein's regime collapsed in 2003, it became apparent to U.S. commanders that a second deployment of Marines to Iraq would be necessary to conduct security and stability operations. This monograph recounts the first two years of this second deployment during which Marines were responsible for Iraq's cast al-Anbar Province. It focuses on I Marine's Expeditionary Force's deployment in 2004 and II Marine Expeditionary Force's deployment in 2005, and focuses on planning, counterinsurgency operations, and

efforts to build civil-military relations with the Iraqi population. The first and second battles of Fallujah and the battle of an-Najaf are also highlighted.

Inside Fallujah Ahmad Manşūr,2009 In 2004, the United States waged one of the bloodiest battles of the Iraq war in the city of Fallujah, west of Baghdad. For many the city was a symbol of the resistance to the US war and occupation; since the battle it has become a symbol of the worst of the US-Iraq war. Only one television station-Al Jazeera-stayed in Fallujah to report on the battle, and the horrifying and heartbreaking images seen worldwide came from reporter Ahmed Mansour and cameraman Laith Mushtaq. The images so outraged the world that the US military made Mansour's leaving Fallujah the first condition for a ceasefire. Donald Rumsfeld called his reporting vicious and inaccurate. Here, for the first time in English, is the renowned reporter's own view of what happened inside Fallujah.

Between a Mosque and a Hard Place Palmer Jones,2022-10-14 Between a Mosque and a Hard Place tells the story of a U.S. Marine Corps infantry officer in Fallujah, Iraq in November, 2004. 1st Lieutenant Palmer Jones was the 1st Battalion, 8th Marines Battalion Liaison Officer who commanded both the Iraqi Special Forces and the 2nd Battalion of the reconstituted Iraqi Army during Operation Al Fajr Operation Phantom Fury. Operation Phantom Fury was the November, 2004 allied assault on the enemy sanctuary of Fallujah, Iraq. Fallujah was the largest urban combat operation in recent history since Hue, Vietnam in 1968. Fallujah Jonathan Holmes,2007 The verbatim play Fallujah, starring Samanthan Morton and with a score by Nitin Sawney, is set to be this year's Guantanamo. This sourcebook documents the testimony that forms the basis of the play, from Iraqi civilians, NGOs, politicians, US and UK military, and journalists involved in the three attacks on Fallujah. It makes a strong case -- based on unpublished evidence gathered by Dr Scilla Elworthy of Peace Direct (and a Nobel Peace-Prize nominee) -- that the US military should be hauled up before the ICC for war crimes. This book will provide the key to the way the verbatim material was put together, to reveal the facts behind the play's fictional form. Also published here is an essay by the playwright and director Jonathan Holmes, and Scilla Elworthy, putting forward the case behind the research and making public the atrocities carried out by the Americans.

Accountability for Killing Neta Crawford,2013-10 The unintended deaths of civilians in war are too often dismissed as

unavoidable, inevitable, and accidental. And despite the best efforts of the U.S. to avoid them, civilian casualties in Afghanistan, Iraq, and Pakistan have been a regular feature of the United States' wars after 9/11. In *Accountability for Killing*, Neta C. Crawford focuses on the causes of these many episodes of foreseeable collateral damage and the moral responsibility for them. The dominant paradigm of legal and moral responsibility in war today stresses both intention and individual accountability. Deliberate killing of civilians is outlawed and international law blames individual soldiers and commanders for such killing. An individual soldier may be sentenced life in prison or death for deliberately killing even a small number of civilians, but the large scale killing of dozens or even hundreds of civilians may be forgiven if it was unintentional--incidental--to a military operation. The very law that protects noncombatants from deliberate killing may allow many episodes of unintended killing. Under international law, civilian killing may be forgiven if it was unintended and incidental to a militarily necessary operation. Given the nature of contemporary war, where military organizations--training, and the choice of weapons, doctrine, and tactics--create the conditions for systemic collateral damage, Crawford contends that placing moral responsibility for systemic collateral damage on individuals is misplaced. She develops a new theory of organizational moral agency and responsibility, and shows how the US military exercised moral agency and moral responsibility to reduce the incidence of collateral damage in America's most recent wars. Indeed, when the U.S. military and its allies saw that the perception of collateral damage killing was causing it to lose support in the war zones, it moved to a population centric doctrine, putting civilian protection at the heart of its strategy. Trenchant, original, and ranging across security studies, international law, ethics, and international relations, *Accountability for Killing* will reshape our understanding of the ethics of contemporary war.

Operation Al-Fajr Matt Matthews, 2006-01-01 The two battles for the Iraqi city of Fallujah in 2004 were turning points in Operation Iraqi Freedom. Elements of the US Marine Corps began an offensive in April to destroy enemy forces in the town, but the battle ended prematurely with the Marines being replaced by the Fallujah Brigade, followed soon after by a complete enemy takeover of the city. Some units of the new Iraqi Army were also committed to the first battle; they were found wanting and the entire Iraqi training program significantly changed in response. In November 2004, a combined USMC, US Army, and Iraqi Army offensive succeeded in eliminating the enemy in Fallujah in a destructive urban battle. In *Operation AL FAJR: A Study in Army and Marine Corp Joint Operations*, Mr. Matt Matthews focuses on the ways in which Army and Marine forces operated together in the second Battle of Fallujah. Among the many Army units that participated, Task Force 2-2 Infantry and Task Force 2-7 Cavalry spearheaded the attacks of two Marine regimental combat teams into and through the city. Matthews' gripping narrative describes their role in the battle from notification, to planning, and through the fighting to the conclusion of their role in the battle. With access to first-person accounts and unit histories from both task forces, Matthews' monograph illuminates many aspects of the battle which have been missing from popular journalistic accounts.

Army - Marine interoperability is the theme around which Matthews bases his account. Well-educated and professional Army and Marine leaders at the Lieutenant Colonel and Colonel levels overcame many ingrained cultural differences to synchronize operations. Army senior NCOs and junior officers displayed tremendous initiative, flexibility, and courage in fighting alongside their Marine counterparts. They skillfully exploited the incredible firepower, survivability and urban mobility of Army heavy forces to destroy enemy resistance in some of the most brutal urban combat of the war. Matthews also addresses areas in which the Army and Marines must continue to improve their ability to fight side by side. Operation AL FAJR is a compelling case study of combat at the tactical level in Operation IRAQI FREEDOM. Army - Marine relations have improved greatly since the acrimony that sometimes plagued the WWII era. As Matthews makes clear, there is more work to be done.

Fallujah Ambush Alley Ambush Alley Games, 2012-12-20 Operations Vigilant Resolve and Phantom Fury - the operations to take and hold the city of Fallujah in the face of determined insurgent resistance - were amongst the most dangerous and controversial carried out by the Coalition forces during Operation Iraqi Freedom. These two battles of Fallujah saw some of the heaviest urban combat faced by regular troops in modern times and, even though much of the civilian populace had fled, the enemy was well-armed, well-prepared and driven by a fanatical resolve.
