Credit Secrets Hollie Deshaies, 2021-05-27 Business credit is the ability of a business to qualify for financing. Businesses have credit reports and scores just like people do. Business credit bureaus Dun & Bradstreet, Experian, and Equifax all keep a record of debt payments and other credit information on businesses. Your business credit report may be used by lenders, creditors, suppliers, insurance companies, and other organizations evaluating a credit or insurance application or business deal. This book will tell you why most people fail to secure large amounts of business credit and will also shed light on what you can do today to avoid being part of that statistic. Picture a world where your credit exposure was minimal at worst and non-existent at best. A world where you financially benefit from having all of your common expenses such as utility bills, phone bills, credit cards, store cards, gas cards, and loans under your business's identity.
