*TRADERS, GUNS AND MONEY SATYAJIT. DAS, 2020*

Traders, Guns & Money Satyajit Das, 2006 Liar's Poker with more lies and more insight, Traders, Guns & Money is a sensational insider's view of the business of trading and marketing derivatives for a living. It reveals the nature of the business, the players and how the real money is made and lost. An accessible companion, a wise counsel and a great read. A sensational and controversial first-person account of the business of derivatives trading and the financial products industry. Offers a true insider's view. Funny and poignant, written in a wry and wickedly comic style. Reveals how shareholders, clients, regulators, and the tax paying ordinary public bear most of the risk in the trading rooms. Reveals the story of how one set of clients discovered the perils of unknowns in a derivatives deal. Traders, Guns & Money cleverly weaves together: the dazzling world of derivatives and how to work out what you know, don't know and need to know; an insider's, expert witness account of the rise and rules of the world of derivatives and the astonishing story of how one set of clients discovered the perils of unknowns in a derivatives deal. Benchmark: Liar's Poker 0340767006. Das now offers more lies and is set in today's derivatives market, and Traders Gun's and Money is written not by a journalist but by a world-famous insider.

**Traders, Guns and Money** Satyajit Das, 2020-07-17 Traders Guns and Money is a wickedly comic exposé of the culture, games and pure deceptions played out every day in trading rooms around the world. And played out with other people's money. A sensational insider's view of the business of trading and marketing derivatives, this revised edition explains the frighteningly central role that derivatives and financial products played in the global financial crisis. This worldwide bestseller reveals the truth about derivatives: those financial tools memorably described by Warren Buffett as 'financial weapons of mass destruction'. Traders, Guns and Money will introduce you to the players and the practices and reveals how the real money is made and lost. The global financial crisis took almost everyone by surprise and even now new problems keep appearing and solutions continue to be elusive. In the original version of Traders, Guns and Money, Satyajit Das provided a highly prescient insight into the structure and risk of the world financial system exposing the problems that are becoming readily apparent. In a 2006 speech - The Coming Credit Crash - Das argued that: an informed analysis ... shows that risk is not better spread but more leveraged and (arguably) more concentrated.... This does not improve the overall stability and security of the financial system but exposes it to increased risk of a crash.

*The Financial Courts* Jo Braithwaite,2021-01-07 In *The Financial Courts*, Jo Braithwaite analyses thirty years of cases involving the global derivatives markets, exploring the nature of these legal disputes and assessing their impact on financial markets and on commercial law more broadly. Weaving together this substantial body of cases with theoretical insights drawn from the growing literature on the internationalisation of financial law, Braithwaite offers readers a detailed and highly original contribution to the debate about the role of private law in international financial markets. This important work should be read by lawyers, economists and regulators in the field.

*The Financial Crisis in Perspective (Collection)* Mark Zandi,Satyajit Das,John Authers,2012-05 How the financial crisis really happened, and what it really meant: 3 books packed with lessons for investors and policymakers! These three books offer unsurpassed insight into the causes and implications of the global financial crisis: information every investor and policy-maker needs to prepare for an extraordinarily uncertain future. In *Financial Shock*, Updated Edition, renowned economist Mark Zandi provides the most concise, lucid account of the economic, political, and regulatory causes of the collapse, plus new insights into the continuing impact of the Obama administration's policies. Zandi doesn't just illuminate the roles of mortgage lenders, investment bankers, speculators, regulators, and the Fed: he offers sensible recommendations for preventing the next collapse. In *Extreme Money*, best-selling author and global finance expert Satyajit Das reveals the spectacular, dangerous money games that are generating increasingly massive bubbles of fake growth, prosperity, and wealth, while endangering the jobs, possessions, and futures of everyone outside finance. Das explains how everything from home mortgages to climate change have become fully financialized... how voodoo banking keeps generating massive phony profits even now... and how a new generation of Masters of the Universe has come to own the world. Finally, in *The Fearful Rise of Markets*, top Financial Times global finance journalist John Authers reveals how the first truly global super bubble was inflated, and may now be inflating again. He illuminates the multiple roots of repeated financial crises, presenting a truly global view that avoids both oversimplification and ideology. Most valuable of all, Authers offers realistic solutions: for decision-makers who want to prevent disaster, and investors who want to survive it. From world-renowned leaders and experts, including Dr. Mark Zandi, Satyajit Das, and John Authers

**Traders, Guns, and Money** Anandasivam Gopal,2017 We investigate how mass shootings influence the stock price of firearms manufacturers. While it is well known that mass shootings lead to increased firearms sales, the response from

financial markets is unclear. On one hand, given the observed short-term increase in demand, firearm stock prices may rise due to the unexpected financial windfall for the firm. On the other, mass shootings may result in calls for regulation of the industry, leading to divestment of firearms stocks in spite of short-term demand. We examine this tension using a market movement event study in the wake of 93 mass shootings in the U.S. between 2009 and 2013. Findings show that stock prices of firearm manufacturers decline after shootings; each event reducing prices between 22.4 and 49.5 basis points, per day. These losses are exacerbated by the presence of a handgun and the number of victims killed, but not affected by the presence of children or location of the event. Finally, we find that these effects are most prevalent in the period 2009-2010 but disappear in later events, indicating that markets appear to have accepted mass shootings as the “new normal.”

Military Economics Ron Smith, 2009-10-29 Military power needs to be financed and economic development is often shaped by military conflict, thus the interaction of military and economy, power and money is central to the modern world. This book provides an accessible introduction to the economics of the use of organised force, with a wide range of historical and current examples.

Stuff Matters Harry Bingham, 2010 A counter-blast to the bashing of capitalism and a fresh and bold re-evaluation of the fundamentals that turn genius into hard currency. Harry Bingham used to be an economist and a banker and thought he understood money. Then, in autumn 2008, the world stood on the edge of calamity and Harry realised that all the things he knew had been proven utterly wrong. So, he decided to go back to first principles, to meet the people who make the money - the entrepreneurs and inventors, the salesmen and financiers. He wanted to find out how the world really worked and what drives the people who make it spin. For the first time he saw that while the economy might be about many things, it is never ever about money. We all have strong feelings about money. It is the magic of its alchemy that has catapulted the human race from extreme poverty to our world of ever-expanding riches, but it also brings with it economic chaos. But how many of us can say what is it made really made of and how it works? From billionaire entrepreneurs and Indian shift-workers to small-time manufacturers and conglomerate CEOs, *The Root of All Good*, is the story of the people who have created the world of extraordinary prosperity that we now live in, and the new system of capitalism they are shaping to recover our future.
