Studies on Iran and The Caucasus Uwe Bläsing,Victoria Arakelova,Matthias Weinreich,2015-07-14 This unique collection of essays by leading international scholars gives a profound introduction into the great diversity and richness of facets forming the study of one of earth's most exciting areas, the Iranian and Caucasian lands. Each of the 37 contributions sheds light on a very special topic, the range of which comprises historical, cultural, ethnographical, religious, political and last but not least literary and linguistic issues, beginning from the late antiquity up to current times. Especially during the last decennia these two regions gained greater interest worldwide due to several developments in politics and culture. This fact grants the book, intended as a festschrift for Prof. Garnik Asatryan, a special relevance. Contributors: Victoria Arakelova; Marco Bais; Uwe Bläsing; Vahe S. Boyajian; Claudia A. Theatre Is My Life! Barbara J Sloan,2024-09-04 Meditation day books are popular spiritual or inspirational guides, but none have been written quite like this one. Drawing from over 50 years of working and creating, teaching and nurturing students in theatre, the author uses quotes from plays as a basis for rumination and the exploration of life, making this particular volume part memoir, part life philosophy, and part mini theatre history vignettes. This volume is written to be read each day, with one writing for each of 366 days of a year. With a spiritual message at the heart of the work, the book will also

appeal to theatre and arts lovers. The author has many years experience in teaching the Enneagram, the Arts as a transcendent adventure, and other wisdom subjects. This meditation collection is good for any spiritual seeker who brings a clear heart and an open mind to spiritual exploration. As the author says, "One of the extraordinary things about working in the theatre day in and day out is that the words of the script of the play I am creating soak through my clothing, permeate my skin, penetrate my brain, and saturate my life." From these quotes, Sloan has created short reflections on life, arranged thematically for every day of the year. Plays, written by real people over the centuries, brim with the same sort of emotions and challenges, joys and fears that impact us today. The characters warn, rejoice, fuss, complain, doubt, advise, and cheer their fellows just as we do today. In this work, Sloan suggests that reading and watching plays can assist us as we review the physical, emotional, mental, and spiritual natures of our own lives. From new beginnings in January to tying up loose ends in December, these meditations become a daily traveling partner for those who want to reflect on how art and literature influence and become a part of our lives.

Learning the Language of Depression The Depression Project,2025-04-21 In order for people with depression to feel safe and understood, it's essential to overcome depression's language barrier As The Depression Project hears every single day from members of their 3,000,000+ person social media community, a "language barrier" often exists between people with depression and those around them — in the sense that many words, everyday expressions and non-verbal forms of communication can take on a vastly different meaning than they otherwise would when they are coming from someone who has depression. And, as The Depression Project also continuously hears, this "language barrier" can result in people with depression being judged and criticized; having conflict with their loved ones; feeling alone, misunderstood and unsupported; and being more at risk of attempting suicide. Consequently, in order to overcome this "language barrier" and therefore help people with depression feel safe, understood, supported and much better as a result. This book will: Explain what people with depression are actually going through when they say "I have depression" (it is much more than sadness); when they say "I'm fine" (very often they are not); when they say "I'm tired" ("depression tiredness" is very different from "normal tiredness"); when they say "I can't" (which is often misinterpreted as "I won't", and as that person with depression just being "lazy"); and when they say other commonly spoken phrases that are often misunderstood by people who have never experienced

depression themselves before. Share a wide variety of suggestions to help make it easier for people with depression to put what they are going through into words. Highlight the language people with depression often use that can indicate they are feeling suicidal (which tragically, is often ignored, dismissed or not picked up on by the people around them). Look at depression's "facial language barrier", and explain what people with depression are often actually going through when they smile, avoid eye contact, have muted facial expressions, or look tired or frustrated (when a person has depression, these facial expressions and interactions can often mean something very, very different than they otherwise would). Address depression's "touch language barrier" by clarifying the reasons why depression can cause someone to be much less tactile and physically intimate than they would otherwise be, and by explaining the steps that can be taken to help prevent this lack of physical intimacy from spiraling into long-term relationship problems. Learning The Language Of Depression is an ideal book for people with depression who would like some help communicating what they are going through so that they can be better understood, as well as friends and family of someone with depression who would like to better understand their loved one and effectively support them.
