The Mathematics of Money Timothy J. Biehler, 2008

Pak Lawrence Clar, 1997-08-01

The Mathematics of Money Timothy Biehler, 2007-06-22 The Mathematics of Money: Math for Business and Personal Finance covers all the traditional topics of the business math course, but with a more algebraic focus than many of the texts currently on the market. The text develops a solid understanding of percent and interest early, then applies that foundation to other applications in business and personal finance. While it is appropriate for students of all levels, the book takes the approach that even if students are coming into the class with only high school math, neither they nor the instructor need to

be afraid of algebra; it takes care to clearly present and reinforce the formulas given and to consistently return to them and apply the material to contexts that are relevant to the students.

Mathematics with Business Applications, Student Edition McGraw-Hill Education,2006-01-03 Glencoe Math with Business Applications is a comprehensive text that covers all the skills students need to manage their personal finances and excel at their first jobs and in everyday life. Math with Business Applications is a three-part program that takes students from basic math concepts to sophisticated financial strategies. Basic Math Skills reviews the fundamental math operations, Personal Finance teaches money management skills, and Business Math provides a thorough primer on launching and running a business. Math with Business Applications contains lessons, workshops, features and activities that comprise a well-rounded program. Cumulative Test Prep prepares students to take the Mathematics with Business Applications tests with more success. Math Studio: A Creative Lab features seven hands-on group projects that develop students' reading, writing, communications, and math skills. Practicing Life Skills Lab provides a hands-on approach to applying math in the real world. Living in the Real World takes a single story and weaves it throughout each section of a chapter.
