An Introduction to Literature for Students of English as a Foreign Language K. Thomas Baby, 2024-04-19 This textbook is the result of the author's long experience of teaching introductory English literature courses, and the non-availability of a suitable textbook for EFL (English as a foreign language) students. The books currently available in the market are beyond the comprehension level of average EFL students. In order to fill this gap and give a solid foundation to students, the initial chapters of the book deal with important literary terms and a brief history of English literature. In addition, the book provides various types of comprehension questions, focussing on the needs of EFL students. Finally, the book consists of carefully selected materials for the study of fiction, poetry and drama from authors representing different ages of English literature. This compact textbook can be considered as an excellent resource for all EFL students and teachers around the world.

Sacred and Mythological Animals Yowann Byghan, 2020-03-25 From the household cat to horses that can fly, a surprisingly wide range of animals feature in religions and mythologies all across the world. The same animal can take on different roles: the raven can be a symbol of evil, a harbinger of death, a wise messenger or a shape-changing trickster. In Norse mythology, Odin's magical ravens perch on his shoulders and bring him news. This compendium draws upon religious texts and myths to explore the ways sacred traditions use animal images, themes and associations in rituals, ceremonies, texts, myths, literature and folklore across the world. Sections are organized by the main animal classifications such as mammals, birds, reptiles, fish, amphibians and insects. Each chapter covers one significant grouping (such as dogs, cats or horses), first describing an animal scientifically and then detailing the mythological attributes. Numerous examples cite texts or myths. A final section covers animal hybrids, animal monsters and mythical animals as well as stars, constellations and Zodiac symbols. An appendix describes basic details of the religions and mythologies covered. A glossary defines uncommon religious terms and explains scientific animal names.

Law and Literature Ian Ward,1995-05-26 The emergence of an interdisciplinary study of law and literature is one of the most exciting theoretical developments taking place in North America and Britain. In *Law and Literature: Possibilities and Perspectives* Ian Ward explores the educative ambitions of the law and literature movement, and its already established critical, ethical and political potential. He reveals the law in literature, and the literature of law, in key areas of literature, from Shakespeare to Beatrix Potter to Umberto Eco, and from feminist literature to children's literature to the modern novel, drawing out the interaction between rape law and *The Handmaid's Tale*, and the psychology of English property law and *The Tale of Peter Rabbit*. This original book defines the developing state of law and literature studies, and demonstrates how the theory of law and literature can illuminate the literary text.

The Unconscious in Literature Yasunori Sugimura,2025-01-31 This book aims to investigate the unconscious in literature using Freudian and Lacanian psychology to analyse the unconscious in a range of literary works. The works of Thomas Hardy, William Golding, and Iris Murdoch are discussed in the first chapter through eight. Based on the argument in these chapters, this volume considers the environmental problem by examining the unconscious in the literary texts, including poetry, in the light of philosophers and critics on ecology. There is a focus on the Oedipus complex, the death drive, and the unsymbolic void, as they have much relevance to each other in the unconscious as to one's relationship with others, primarily with the mother, and underlie the plots and leitmotifs of the literary texts discussed. The author carefully examines the complicated relationship between the infringement of the pleasure principle, and the unsymbolic void, and how they are depicted as various phases of nature.
