**Sudhir Kochhar**

**The Use of Foreign Exchange Swaps by Central Banks** Ms.Catharina J. Hooyman,1993-08-01 The paper discussed the use of foreign exchange swaps by central banks. Such use has aimed at affecting domestic liquidity, managing foreign exchange reserves, and stimulating domestic financial markets. It discusses these different uses and present evidence for a selected group of countries. The paper cautions about the use of foreign exchange swaps to defend a particular exchange rate at a time when foreign exchange reserves are under pressure. It notes, finally, that use of foreign exchange swaps by central banks has been losing importance.

**Annual Report on Exchange Arrangements and Exchange Restrictions 1969** International Monetary Fund. External Relations Dept.,1969-09-01 This paper highlights the period under review was characterized by an unusually rapid increase in world trade and stresses on the international payments system. After a downturn in the rate of expansion of world trade in 1967, there was a sharp rise in the rate of growth in 1968. There was less emphasis on restrictions on current transactions, the main reliance being placed on capital controls in the efforts of the major trading countries to restore their balance of payments position. The area in which certain countries felt obliged to exercise control over current payments was the provision of exchange for travel expenditure, partly to prevent evasion of the capital controls. Several countries made important changes in their exchange and trade systems during the year tending toward liberalization of their restrictions. However, more restrictive import policies were adopted in other countries, which generally have a more important share in world trade.

**Options for Exchange Rate Policy** United Nations. Economic and Social Commission for Asia and the Pacific,2000 The exchange rate is a vital pillar of macroeconomic management. During the recent Asian crises many analysts argued that otherwise sound economic management in east and southeast Asian countries was undermined by deficiencies in exchange rate policies. An appropriate policy has to take into account the size, structural features and openness of the economy. It has to be consistent with monetary and fiscal policies and factor in the implications of policy evolution in major trading partners, particularly in the case of the least developed countries which have close trade and investment links with a large neighbouring country. This publication is the final output of a project for the benefit of selected least developed countries in the region. Country studies for Bangladesh, Bhutan, Cambodia, the Lao People's Democratic Republic, and Nepal are included.

69 cha kutumaini sina 1 cha kutumaini sina ila damu yake  
bwana sina wema wa kutosha dhambi zangu kuziosha kiitikio  
kwake yesu nasimama ndiye mwamba ni salama ndiye  
mwamba ni salama 2 njia yangu iwe ndefu yeye hunipa  
wokovu mawimbi ya kinipiga nguvu zake ndiyo
