(Re)mapping the Latina/o Literary Landscape Cristina Herrera, Larissa M. Mercado-López, 2016-08-10 This book broadens the scope of Latina/o criticism to include both widely-read and understudied nineteenth through twenty-first century fictional works that engage in critical discussions of gender, race, sexuality, and identity. The essays in this collection do not simply seek inclusion for the texts they critically discuss, but suggest that we more thoughtfully consider the utility of mapping, whether we are mapping land, borders, time, migration, or connections and disconnections across time and space. Using new and rigorous methodological approaches to reading Latina/o literature, contributors reveal a varied and textured landscape, challenging us to reconsider the process and influence of literary production across borders.

Global Perspectives on Project-Based Language Learning, Teaching, and Assessment Gulbahar Beckett, Tammy Slater, 2019-10-08 This volume provides a comprehensive account of project-based language learning (PBL) which showcases key theoretical approaches, empirical research, technological tools, and research-based frameworks to help further PBL implementation and research. Taking its cue from the conclusions drawn from project-based learning more broadly, which point to the impact of project-based work on learning and development, discourse socialization, subject engagement, and collaborative skills, the book highlights how these discussions might be extended and enhanced within the context of language learning. The volume begins with discussions of philosophical and theoretical models of PBL and is followed by case studies from contributors from a range of learning contexts and geographic regions which demonstrate these models in practice, with a focus on the implementation of technology in such instances. The book also introduces resources for aligning projects with government standards in the classroom but also frameworks for researching and assessing PBL. This comprehensive collection is essential reading for students and researchers in language learning and teaching, language education, curriculum design, and applied linguistics.

Smeltertown Monica Perales,2010-09-13 Company town. Blighted community. Beloved home. Nestled on the banks of the Rio Grande, at the heart of a railroad, mining, and smelting empire, Smeltertown--La Esmelda, as its residents called it--was home to generations of ethnic Mexicans who labored at the American Smelting and Refining Company in El Paso, Texas. Using newspapers, personal archives, photographs, employee records, parish newsletters, and interviews with former residents, including her own relatives, Monica Perales unearths the history of this forgotten community. Spanning almost a century, Smeltertown traces the birth, growth, and ultimate demise of a working class community in the largest U.S. city on the Mexican border and places ethnic Mexicans at the center of transnational capitalism and the making of the urban West. Perales shows that Smeltertown was composed of multiple real and imagined social worlds created by the company, the church, the schools, and the residents themselves. Within these dynamic social worlds, residents forged permanence and meaning in the shadow of the smelter's giant smokestacks. Smeltertown provides insight into how people and places invent and reinvent themselves and illuminates a vibrant community grappling with its own sense of itself and its place in history and collective memory.
