**Photography as Activism** Michelle Bogre,2012-11-12 You want to look through the lens of your camera and change the world. You want to capture powerful moments in one click that will impact the minds of other people. Photographic images are one of the most popular tools used to advocate for social and environmental awareness. This can be as close to home as drug use, prostitution, or pollution or as far away as famine, war, and the plight of refugees and migrant workers. One well-known example of an activist photographer would be landscape photographer Ansel Adams, who trudged to Washington with stunning images of the American west to advocate protecting these areas. His images and testimony were instrumental in creating the National Park System and garnering specific protection for Yellowstone National Park. More recently Robert

Glenn Ketchum's images of Alaska's Arctic National Wildlife Refuge raised awareness of why this area should be protected. Nigel Barker's seal photographs advocates against seal clubbing. What is your cause and how can you use your camera to make the world a better place? This book provides a comprehensive theory of, and history of, photography as activism. It also includes interviews with contemporary photographers. It is a call to action for young photographers to become activists, a primer of sorts, with advice for how to work with NGOs and non-profits, how to work safely in conflict zones and with suggestions for distribution on websites, blogs, and interactive agencies.

**Domestic Violence and Social Work** Julie Pryke,Martin Thomas,1998 The aims of this work are to make the case for social work departments to have the major responsibility for the problem of domestic violence. It proposes the principle ingredients for a policy on domestic violence which might be adopted by a local authority.

**Domestic Violence** Margi Laird McCue,1995-12 This comprehensive work examines the world of the abused and the abuser while providing timely information on treatment, education, and prevention. A survey of the history of abuse reveals its roots in ancient laws and religions and its pervasiveness in all societies. Myths, statistics, and the effects of domestic violence on children are explored, as are the legal cases and court actions that have shaped the movement to end violence in the home. A state-by-state directory of leading agencies and organizations and a review of the programs available to both the victim and the abuser provide immediate referral for those seeking help for themselves or others, and annotated listings of print and nonprint resources direct the reader to additional research sources. This volume provides a wealth of objective information on this very disturbing problem. Domestic Violence: A Reference Handbook is part of ABC-CLIO's award-winning Contemporary World Issues series. Other books in the series deal with the issues such as gun control, rape, gambling, homelessness, wilderness preservation, and international trade.

**Arresting Abuse** Keith Guzik,2009 Somewhat overlooked in this debate has been how mandatory arrest and no-drop prosecution affect abusers, a critical question for understanding the power of criminal punishment to combat intimate partner abuse. In *Arresting Abuse*, Keith Guzik answers this question. Drawing both from firsthand observations of a police department and a criminal court following mandatory policies and extensive interviews with 30 offenders arrested and prosecuted for domestic violence, *Arresting Abuse* provides a critical assessment. While mandatory arrest and no-drop prosecution allow the state to extend formal legal supervision over an increasing number of violent men and women, thus seemingly increasing its power over them, offenders prove resistant to change. They see themselves as victims of injustice, continue to view their violence as justified, and devise new strategies to preserve their definition and enactment of self.
