Space Raptor Butt Trilogy Chuck Tingle, 2016-07-11 With his genre-defining work, *Space Raptor Butt Invasion*, Chuck Tingle proved that even gay dinosaur erotica could be nominated for a Hugo Award, the most prestigious honor in science fiction. Nobody could have expected what would happen when the story continued. Collected here is the entire trilogy of Chuck Tingle's history making *Space Raptor Butt* series. **SPACE RAPTOR BUTT INVASION** Space can be a lonely place, especially when you're stationed by yourself on the distant planet Zorbus. In fact, Lance isn't quite sure that can last the whole year before his shuttle pod arrives, but when a mysterious visitor appears at Lance's terraforming station, he quickly realizes that he might not be so alone after all. Soon enough, Lance becomes close with this mysterious new astronaut, a velociraptor. Together, they form an unlikely duo, which quickly begins to cross the boundaries of friendship into something much, much more sensual. It's not gay if it's a man and a dinosaur, is it? **SPACE RAPTOR BUTT REDEMPTION** After a year stationed on planet Zorbus, astronaut Lance Tanner and his raptor lover Orion return home to find that they are not greeted as heroes, but as villains. Unbeknownst to Lance, his space travels have been funded by the villainous Scoundrels Inc, a corporation that has deep ties to the illegal trade of unicorn tears and a destructive mining project at the core of the earth. Now Lance is on trial for a number of false charges; from having connections to the wicked Scoundrels, to being too strange for space. The opposing lawyer argues that space is only for serious astronauts, and that love between a raptor and a man is giving space travel a bad name. Lance is arguing that there's room to be weird in space. More importantly, Lance is arguing for the idea of love itself; that just because something comes out of darkness doesn't mean it can't become a beacon of light. Of course, this all culminates in a hardcore dinosaur on astronaut pounding that will have your jaw on the courtroom floor! **SPACE RAPTOR BUTT ASCENSION** Soon after blasting off on their mission to find refuge for the people of Earth 1 on the dinosaur inhabited Earth 2, Orion and his space raptor lover Lance find a spaceship stow away, the notorious CEO of Scoundrels Inc, Vam Dox. Vam claims that his intentions are pure, but it's hard to trust such a sad, strange man. After landing in Hugona, the planet capital of Earth 2, our heroes restrain Vam Dox and head off to secure an important diplomatic relationship with the pterodactyl president, but that's when all hell breaks loose. Soon, Vam Dox is storming the capital with a band of rabid dogs, and Lance and Orion are wrongly taking the blame! Fortunately, Lance and Orion know that the only cure for evil this strong is to prove their love in a hardcore gay encounter at the steps of the capital building. When the

smoke clears, will Vam Dox be revealed as the super villain that he claims to be, or a meek, lonesome manbaby who is starved for attention?

Everything and Less Mark McGurl, 2021-10-19 National Book Critics Circle Award Finalist Best Book of Fall (Esquire) and a Most Anticipated Book of 2021 (Lit Hub) What Has Happened to Fiction in the Age of Platform Capitalism? Since it was first launched in 1994, Amazon has changed the world of literature. The “Everything Store” has not just transformed how we buy books; it has affected what we buy, and even what we read. In *Everything and Less*, acclaimed critic Mark McGurl explores this new world where writing is no longer categorized as high or lowbrow, literature or popular fiction. Charting a course spanning from Henry James to E. L. James, McGurl shows that contemporary writing has less to do with writing per se than with the manner of its distribution. This consumerist logic—if you like this, you might also like ...—has reorganized the fiction universe so that literary prize-winners sit alongside fantasy, romance, fan fiction, and the infinite list of hybrid genres and self-published works. This is an innovation to be cautiously celebrated. Amazon’s platform is not just a retail juggernaut but an aesthetic experiment driven by an unseen algorithm rivaling in the depths of its effects any major cultural shift in history. Here all fiction is genre fiction, and the niches range from the categories of crime and science fiction to the more refined interests of Adult Baby Diaper Lover erotica. *Everything and Less* is a hilarious and insightful map of both the commanding heights and sordid depths of fiction, past and present, that opens up an arresting conversation about why it is we read and write fiction in the first place.

The Cackle of Cthulhu Alex Shvartsman, 2018-01-02 TOP AUTHORS POKE FUN AND PAY TRIBUTE TO H.P. LOVECRAFT'S CTHULHU MYTHOS. Knock, knock! Who’s there? Cthul. Cthul who? Exactly! I’ve come to tickle your funnybone. Oh, and also to eat your soul. In 1928, *Weird Tales* debuted “The Call of Cthulhu” by H.P. Lovecraft, and the Cthulhu Mythos was born. In the 90 years since, dozens of writers have dared play within HPL’s mind-blowing creation—but never with such terrifyingly funny results. Now top authors lampoon, parody, and subvert Lovecraft’s Mythos. See Cthulhu cut short his nap at the bottom of the Pacific Ocean to invade North Korea! Watch the Unspeakable Eater of Souls solve crimes on the pulpy streets of Innsmouth! And speaking of largish Elder Gods, listen to a plastic Elvis doll dispense folksy advice straight from the heart of the Emperor of Dread! Again Ol’ Tentacle-Face is confronted by frail humans who dare defy the Incarnation of Ultimate Evil—but this time not by brave monster hunters and terrified villagers, but by fan fiction writers, clueless college students, and corporate lawyers (okay, we realize it’s hard to know who to root for in that confrontation). Twenty-three mirthful manifestations within the Cthulhu Mythos from best-selling and award-winning authors Neil Gaiman, Mike Resnick, Esther Friesner, Ken Liu, Jody Lynn Nye, Laura Resnick, Nick Mamatas, and many more! Guaranteed to leave you howling. Because if you look at it just right, there’s nothing funnier than a soul writhing in cosmic horror before a tentacled maw of malevolence. As HPL himself saith: “From even the greatest of horrors irony is seldom absent.” Praise for

the Unidentified Funny Objects anthologies, edited by Alex Shvartsman: “This book is a delight. There are a lot of giggles here, and every now and then you’ll laugh your head off. This is a hoot from start to finish.”—Galaxy’s Edge “Shvartsman delivers a wonderful anthology and if you want to broaden your humorous SFF reading, Unidentified Funny Objects is a great place to start.”—A Fantastical Librarian Praise for Alex Shvartsman: “Shvartsman is an entertaining writer who can take on many voices and make them his.”—Locus “Alex Shvartsman’s comedy is bright and direct with clever dialogue of both the inner and outer sort.”—Tangent Online Complete Contributor List: Neil Gaiman Jody Lynn Nye Mike Resnick Ken Liu Nick Mamatas Esther Friesner David Vaughan Kevin Wetmore Shaenon K. Unserious Ecocriticism Jessica Landau, Maria Lux, 2026-01-20 Climate change, biodiversity loss, and environmental injustice are complex, messy, and gravely important issues. In addressing these concerns, traditional ecocriticism understandably has taken itself very seriously. *Unserious Ecocriticism*, by contrast, highlights alternative responses to the challenges of environmental collapse and catastrophe. By theorizing an unserious ecocriticism, contributors to this volume validate and empower alternatives to mainstream environmentalism, scholarship, and artmaking. The essays, artworks, and non-traditional scholarly formats of this edited collection demonstrate that the creative tools available to artists and those who study them are particularly well positioned to inventively disrupt normative modes of ecocritical presentation and environmentalist thought. Rather than approach environmental crises through tragic and dire warnings, contributors take seriously the unexpected or easily dismissed, play with format and form, embrace the bodily and abject, take pleasure in their subjects of study, have fun, and crack jokes. In *Unserious Ecocriticism*, humor, playfulness, parody, and irreverence become tools to challenge expectations, cope with complicated problems, and imagine new futures. Edited by Jessica Landau and Maria Lux, with a foreword by Aaron Sachs and contributions from Allie ES Wist, Deke Weaver, Kathleen McDermott, Annie Ronan, Kimiko Matsumura, Ina Linge, Paula Kupfer, Craig Carey, Anna Ialeggio, Topher Lineberry, Stentor Danielson, Patrick Gonder, Matthew Teti, Nicole Seymour, with Emily Eliza Scott, Rob Gioielli, and Jenny Price, Phaen Howng, and Jennifer Schell.
