Better than Fiction 2 Karen Joy Fowler, Sophie Cunningham, Dave Eggers, M J Hyland, Lloyd Jones, Marina Lewycka, Alexander McCall Smith, DBC Pierre, Fiona Kidman, Francine Prose, 2015-10-01 From Lonely Planet, the world's leading travel guide publisher, *Better Than Fiction 2*, the follow-up to 2012's *Better Than Fiction*, is a second serving of true travel stories told by some of the world's best fiction writers including Dave Eggers, Jane Smiley and Karen Joy Fowler. Varied in place, plot and voice, these are stirring and evocative pieces that all share one common characteristic—they manifest a passion for the precious gift of travel, from its unexpected but inevitably enriching lessons about other peoples and places, to the truths, sometimes uncomfortable but always enlarging, it reveals about ourselves. By turns comic, dramatic, and moving - from Francine Prose's confrontation of the mysteries of India to DBC Pierre's search for Hemingway's muse in Italy - these 30 short tales reveal the joys, perils, and surprises of travel, and that truth can often be stranger (and better) than fiction. Whether on a plane en route to your own travel adventure, or at home settling in for a vicarious experience of world adventures, embark on this literary journey around the world and explore your passion for travel now! The Afterlife in Popular Culture Kevin O'Neill,2022-06-17 The Afterlife in Popular Culture: Heaven, Hell, and the Underworld in the American Imagination gives students a fresh look at how Americans view the afterlife, helping readers understand how it's depicted in popular culture. What happens to us when we die? The book seeks to explore how that question has been answered in American popular culture. It begins with five framing essays that provide historical and intellectual background on ideas about the afterlife in Western culture. These essays are followed by more than 100 entries, each focusing on specific cultural products or authors that feature the afterlife front and center. Entry topics include novels, film, television shows, plays, works of nonfiction, graphic novels, and more, all of which address some aspect of what may await us after our passing. This book is unique in marrying a historical overview of the afterlife with detailed analyses of particular cultural products, such as films and novels. In addition, it covers these topics in nonspecialist language, written with a student audience in mind. The book provides historical context for contemporary depictions of the afterlife addressed in the entries, which deal specifically with work produced in the 20th and 21st centuries.

The Beloved Does Not Bite Debra Dudek,2017-07-06 In this new monograph, author Debra Dudek defines a new era of vampire texts in which vampires have moved from their iconic dark, feared, often seductive figure lingering in alleys, to the beloved and morally sensitive vampire winning the affections of teen protagonists throughout pop culture. Dudek takes a close look at three hugely-popular vampire series for young adults, drawing parallels between the TV series Buffy the Vampire Slayer, the Twilight Saga novels/films, and The Vampire Diaries TV series/book series. By defining a new era of vampire texts and situating these three series within this transition, *The Beloved Does Not Bite* signals their significance and lays the groundwork for future scholarship on the flourishing genre of paranormal romances for young adults.

Remaking History Jerome De Groot,2015-07-30 Remaking History considers the ways that historical fictions of all kinds enable a complex engagement with the past. Popular historical texts including films, television and novels, along with cultural phenomena such as superheroes and vampires, broker relationships to 'history', while also enabling audiences to understand the ways in which the past is written, structured and ordered. Jerome de Groot uses examples from contemporary popular culture to show the relationship between fiction and history in two key ways. Firstly, the texts pedagogically

contribute to the historical imaginary and secondly they allow reflection upon how the past is constructed as 'history'. In doing so, they provide an accessible and engaging means to critique, conceptualize and reject the processes of historical representation. The book looks at the use of the past in fiction from sources including *Mad Men*, *Downton Abbey* and Howard Brenton's *Anne Boleyn*, along with the work of directors such as Terence Malick, Quentin Tarantino and Martin Scorsese, to show that fictional representations enable a comprehension of the fundamental strangeness of the past and the ways in which this foreign, exotic other is constructed. Drawing from popular films, novels and TV series of recent years, and engaging with key thinkers from Marx to Derrida, *Remaking History* is a must for all students interested in the meaning that history has for fiction, and vice versa.

Becoming the Lost Colony Charles R. Ewen, E. Thomson Shields, Jr., 2024-04-12 Headlines declare after each new hint of evidence that the Lost Colony--the English colonists left on Roanoke Island in 1587, including Virginia Dare--has been found. None of these claims pass muster as the historical, archaeological, and literary evidence presented here demonstrate. This book analyzes several hypotheses and demonstrates why none have been shown to be more probable than any of the others. To understand how the 1587 colonists became The Lost Colony, the authors recount the history of the English expeditions in the 1580s and the original searches for the colonists from 1590 until the 1620s. The archaeological evidence gathered from the 19th through the 21st centuries is presented. The book then examines how the disappearance of the colonists has been portrayed in pseudoscience, fiction, and popular culture from the beginnings until the present day. In the end, readers will have all the data they need to judge new claims concerning the fate of The Lost Colony.

Economics of the Undead Glen Whitman, James Dow, 2014-07-17 Whether preparing us for economic recovery after the zombie apocalypse, analyzing vampire investment strategies, or illuminating the market forces that affect vampire-human romances, *Economics of the Undead: Zombies, Vampires, and the Dismal Science* gives both seasoned economists and layman readers something to sink their teeth into. Undead characters have terrified popular audiences for centuries, but when analyzed closely, their behaviors and stories—however farfetched—mirror our own in surprising ways. The essays collected in this book are as humorous as they are thoughtful, as culturally relevant as they are economically sound, and provide an accessible link between a popular culture phenomenon and the key concepts necessary to building one's understanding of economic systems big and small. It is the first book to apply and combine economics and our society's fascination with the undead, and is an invaluable resource for those looking to learn economic fundamentals in a fun and innovative way. The Encyclopedia of Best Films Jay Robert Nash,2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Abraham Lincoln: Vampire Hunter Seth Grahame-Smith,2010-03-02 Indiana. Moonlight falls through the dense woods that surround a one-room cabin, where a nine-year-old Abraham Lincoln kneels at his suffering mother's bedside. She's been stricken with something the old-timers call Milk Sickness. My baby boy... she whispers before dying. Only later will the grieving Abe learn that his mother's fatal affliction was actually the work of a vampire. When the truth becomes known to young Lincoln, he writes in his journal, henceforth my life shall be one of rigorous study and devotion. I shall become a master of mind and body. And this mastery shall have but one purpose... Gifted with his legendary height, strength, and skill with an ax, Abe sets out on a path of vengeance that will lead him all the way to the White House. While Abraham Lincoln is widely lauded for saving and freeing millions of slaves, his valiant fight against the forces of the undead has remained in the shadows for hundreds of years. That is, until Seth Grahame-Smith stumbled upon The Secret Journal of Abraham Lincoln, and became the first living person to lay eyes on it in more than 140 years. Using the journal as his guide and writing in the grand biographical style of Doris Kearns Goodwin and David McCullough, Seth has reconstructed the true life story of our greatest president for the first time-all while revealing the hidden history behind the Civil War and uncovering the role vampires played in the birth, growth, and near-death of our nation.
