**Basic Saxophone Fingering Chart: for Soprano, Alto, Tenor, Baritone, Bass Saxophones** Helen Winter, This book aims to help beginners play the saxophone. The book includes 33 saxophone diagrams with fingering positions and staff notation and 33 illustrations of the fingering location on the saxophone itself. The musical notes cover almost 3 octaves from A#3 to F#6. The most popular types of saxophones are alto, tenor, soprano, and baritone. These fingering charts are suitable for all of them. Here are the primary fingerings (basic charts). This book does not include the altissimo and trill fingerings. You can cut out the charts or use them directly from the booklet. Each note here has its own page in the book. One side of the page shows the connection between the dots and their fingering on a diagram, and the reverse side depicts the same fingering illustration on the musical instrument. Under the picture of the key, you will also find the fingering combinations depicted with the names of the key. Choose a style that makes it easier for you to learn. If you are a beginner/student or even more advanced, try hanging the individual pages on the wall in front of you. The size of the cut-out is 6.5x10 inches (16x25 cm).
