The City of God Books 11-22 Saint Augustine, 2014-06-18 Along with his *Confessions*, *The City of God* is undoubtedly St. Augustine's most influential work. In the context of what begins as a lengthy critique of classic Roman religion and a defense of Christianity, Augustine touches upon numerous topics, including the role of grace, the original state of humanity, the possibility of waging a just war, the ideal form of government, and the nature of heaven and hell. But his major concern is the difference between the City of God and the City of Man – one built on love of God, the other on love of self. One cannot but be moved and impressed by the author's breadth of interest and penetrating intelligence. For all those who are interested in the greatest classics of Christian antiquity, *The City of God* is indispensable. This long-awaited translation by William Babcock is published in two volumes, with an introduction and annotation that make Augustine's monumental work approachable. Books 11-22 offer Augustine's Christian view of history, including the Christian view of human destiny. The INDEX for Books 1-22 (both volumes of *The City of God*) is contained in this edition.

On the Catechising of the Uninstructed Saint Augustine, Saint Augustine of Hippo, 2015-06-08 Augustine, the man with upturned eye, with pen in the left hand, and a burning heart in the right (as he is usually represented), is a philosophical and theological genius of the first order, towering like a pyramid above his age, and looking down commandingly upon succeeding centuries. He had a mind uncommonly fertile and deep, bold and soaring; and with it, what is better, a heart full of Christian love and humility. He stands of right by the side of the greatest philosophers of antiquity and of modern times. We meet him alike on the broad highways and the narrow footpaths, on the giddy Alpine heights and in the awful depths of speculation, wherever philosophical thinkers before him or after him have trod. As a theologian he is facile princeps, at least surpassed by no church father, schoolman, or reformer. With royal munificence he scattered ideas in passing, which have set in mighty motion other lands and later times. He combined the creative power of Tertullian with the churchly spirit of Cyprian, the speculative intellect of the Greek church with the practical tact of the Latin. He was a Christian philosopher and a philosophical theologian to the full.

The Confessions of S. Augustine Saint Augustine (of Hippo), 1838 Written between 397 and 400 A.D., *The Confessions of Saint Augustine* is thought to be the first autobiography in Western civilization and is considered by many to be one of the most important religious works of all time. While not a complete account of Augustine's life, for Augustine wrote *Confessions* in his early forties and would live well into his seventies, it is one of the most complete first-hand accounts of anyone's life from the fourth or fifth century, in which the author outlines the sins of his youth and conversion to Christianity. The *Confessions* tells of its author's upbringing in Algeria, his place at the Imperial court of Milan, his struggle to overcome his sexual desires, and the ultimate dedication of his life to Christ and Christian ways. The *Confessions* are not simply a recount of the author's life but a true exploration of what it is to be Christian and the struggles that one must overcome in order to find Christ and live a more pious life. A pioneering work of autobiography, *The Confessions* remains one of the most important works of spiritual devotion ever written.
