Music Theory for Musical Theatre John Bell, Steven R. Chicurel, 2008-08-25 Music Theory for Musical Theatre is a textbook designed to demystify music theory and analysis to make it more accessible to the musical theatre student. It aims to equip the student with a basic skill set that he or she can directly apply to the art form. John Bell and Steven R. Chicurel explore how musical theatre composers use basic principles of music theory to help illuminate characters and tell stories, while helping the student understand the form, structure, and dramatic power of musical theatre repertoire. The material is presented in three parts. Part I breaks down key concepts in the rudiments of music theory, including melody, rhythm, harmony, and form, while using excerpts from musical theatre literature to illustrate these ideas. Part II offers full analyses of musical theatre songs, presenting a model for singing actors on how to use musical analysis as an aid in performance. The workbook in Part III provides hands-on drills and exercises that the reader can use to facilitate skill development of the ideas presented in part one. Published with a lay-flat binding for easy use in the classroom and concluding with a glossary that reinforces important terminology, this textbook fills a long-neglected need in musical theatre study that will be beneficial to beginning and advanced students alike.

**The World of Musicals** Mark A. Robinson, 2014-04-17 This wide-ranging, two-volume encyclopedia of musicals old and new will captivate young fans—and prove invaluable to those contemplating staging a musical production. Written with high school students in mind, *The World of Musicals: An Encyclopedia of Stage, Screen, and Song* encompasses not only Broadway and film musicals, but also made-for-television musicals, a genre that has been largely ignored. The two volumes cover significant musicals in easily accessible entries that offer both useful information and fun facts. Each entry lists the work's writers, composers, directors, choreographers, and cast, and includes a song list, a synopsis, and descriptions of the original production and important revivals or remakes. Biographical entries share the stories of some of the brightest and most celebrated talents in the business. The encyclopedia will undoubtedly ignite and feed student interest in musical theatre. At the same time, it will prove a wonderful resource for teachers or community theatre directors charged with selecting and producing shows. In fact, anyone interested in theatre, film, television, or music will be fascinated by the work's tantalizing bits of historical and theatre trivia.

*The Contemporary Singing Actor* Hal Leonard Corp., 2004-06-01 (Vocal Collection). This expansive series takes an in-

depth look into contemporary theatre repertoire for singers, spanning the 1980s, '90s and into the 21st century. Approximately 35-40 songs per volume represent the most interesting choices for singers from a wide variety of Broadway, Off-Broadway and London shows. Every auditioning singer will find plenty of intriguing possibilities! This third edition includes songs from *The Color Purple* , *Elegies for Angels*, *Punks and Raging Queens* , *Hamilton* , *If/Then* , *The Light in the Piazza* , *Rocky the Musical* , *Spring Awakening* , *Wicked*, and more!

Show Tunes Steven Suskin,2010-03-09 *Show Tunes* fully chronicles the shows, songs, and careers of the major composers of the American musical theatre, from Jerome Kern's earliest interpolations to the latest hits on Broadway. Legendary composers like Gershwin, Rodgers, Porter, Berlin, Bernstein, and Sondheim have been joined by more recent songwriters like Stephen Schwartz, Stephen Flaherty, Michael John LaChiusa, and Adam Guettel. This majestic reference book covers their work, their innovations, their successes, and their failures. *Show Tunes* is simply the most comprehensive volume of its kind ever produced, and this newly revised and updated edition discusses almost 1,000 shows and 9,000 show tunes. The book has been called a concise skeleton key to the Broadway musical (*Variety*) and a ground-breaking reference work with a difference (*Show Music*)-or, as the *Washington Post* observed, It makes you sing and dance all over your memory. The eagerly anticipated Fourth Edition, updated through May, 2009, features the entire theatrical output of forty of Broadway's leading composers, in addition to a wide selection of work by other songwriters. The listings include essential production data and statistics, the most extensive information available on published and recorded songs, and lively commentary on the shows, songs, and diverse careers. Based on meticulous research, the book also uncovers dozens of lost musicals-including shows that either closed out of town or were never headed for Broadway-and catalogs hundreds of previously unknown songs, including a number of musical gems that have been misplaced, cut, or forgotten. Informative, insightful, and provocative, *Show Tunes* is an essential guide for anyone interested in the American musical.

**Songs for a New World (Songbook)** ,2001-11-01 (Vocal Selections). Composer Jason Robert Brown says of his debut musical, It's about one moment. It's about hitting the wall and having to make a choice, or take a stand, or turn around and go back. The moment you think you know where you stand, the things that you're sure of slip from your hand, and you're suddenly a stranger in some completely different land. Our songbook features 10 vocal selections from the show: Christmas Lullaby \* The Flagmaker, 1775 \* Hear My Song \* I'd Give It All for You \* I'm Not Afraid of Anything \* King of the World \* The New World \* She Cries \* Stars and the Moon \* Surabaya-Santa. Also includes an introduction by Brown.

*Rebels with Applause* Scott Miller,2001 The author pulls back the curtain on some of the greatest, most important

American musicals, taking you on a tour of the milestones in the history of musical theatre. These are musicals that broke all the old rules and created new ones, and changed the way we looked at musical theatre forever: the savage political satire of *The Cradle Will Rock* in 1937; the surprisingly dark sexuality of *Pal Joey* in 1940; the profound innovations of *Oklahoma!* in 1943; the absurdist social satire of *Anyone Can Whistle* in 1964; the convention-shattering experiment that was *Hair* in 1967; the intimacy and emotional power of Jacques Brel in 1968; the provocative honesty of the gay-themed *Ballad of Little Mikey* in 1994; the abstract sophistication of the jazz/pop/R&B-flavored *Songs for a New World* in 1995; the emotional immensity of the anti-spectacle *Floyd Collins* in 1995; the overwhelming influence of the 1996 rock musical *Rent*. Offering insightful, provocative opinions on character, plot, musical and textual themes, lyrics, subtext, motivation, backstory, and historical context, the author reveals new details about what makes each one of these musicals great.
