Cultural Typologies of Love Victor Karandashev, 2022-09-01 This timely volume offers an integrative approach and a culturally diverse view of love conceptions, experiences, and expressions, building on both individual and cultural typologies of love. It comprehensively presents cultural and cross-cultural studies on how culture affects love, and offers a systematic description of types and cultural models of love. The comprehensive reviews of methodology and findings provide a solid empirical basis for the creation of formal typologies. This book will be useful for researchers interested in cross-cultural studies of love across many disciplines. Its accessible language also makes it ideal for undergraduate and graduate students. Readers will gain a comprehensive understanding of: Cultural conceptions of love and methods for their research Multiple perspectives in the studies of love across world cultures Cultural models and typologies in an international perspective Cultural models and typologies from an interdisciplinary scientific perspective

Human-Robot Intimate Relationships Adrian David Cheok, Emma Yann Zhang, 2019-02-12 The idea of humans falling in love with artificial beings is not a modern conception. Our relationship with artificial partners has come a long way since Pygmalion and his ivory lover. In recent years, there has been a strong upsurge of interest and discussions in the various aspects of intimate relationships between humans and artificial partners. This interest is evidenced by the increase in media coverage, TV documentaries and films on this topic, as well as the active research efforts within the academic community. This book provides a comprehensive collection and overview of the latest development in the field of intimate relationships between humans and artificial partners, in particular robots and virtual agents. It includes relevant research work undertaken by the authors, the latest advancements in technology and commercial products, and future predictions and insights from leading experts in the area. This book contains an in-depth discussion of the engineering, philosophical, psychological, ethical, and sociological implications of relationships with artificial companions. It also gives a glimpse of some future directions of artificial intelligence, human-computer love and sexual interaction, robotics engineering etc. It is a great resource for researchers and professionals working in these areas. The narrative style of the book also makes it an enjoyable and educational read for everyone.

The Routledge Handbook of Love in Philosophy Adrienne M. Martin, 2019-01-15 *The Routledge Handbook of Love in Philosophy* collects 39 original chapters from prominent philosophers on the nature, meaning, value, and predicaments of love, presented in a unique framework that highlights the rich variety of methods and traditions used to engage with these subjects. This volume is structured around important realms of human life and activity, each of which receives its own section: I. Family and Friendship II. Romance and Sex III. Politics and Society IV. Animals, Nature, and the Environment V. Art, Faith, and Meaning VI. Rationality and Morality VII. Traditions: Historical and Contemporary. This last section includes chapters treating love as a subject in both Western and non-Western philosophical traditions. The contributions, all appearing in print here for the first time, are written to be accessible and compelling to non-philosophers and philosophers alike; and the volume as a whole encourages professional philosophers, teachers, students, and lay readers to rethink standard constructions of philosophical canons.

Marriage and the Family Julie Xuemei Hu, Shondrah Tarrezz Nash, 2019-04-23 *Marriage and the Family: Mirror of a Diverse Global Society* is a comprehensive text about marriage and the family in sociology, family science, and diversity studies. The book is divided into four parts: studying marriage patterns and understanding family diversity; developing and maintaining intimate relationships; tackling family issues and managing household crises; and appreciating contemporary living arrangements in a diverse American society and across the global community. *Marriage and the Family* is unique in its focus on diversity as well as its global perspective. Diversity Overview boxes feature vignettes of family diversity in America. Global Overview boxes invite students to experience family life in different areas of the world. Indeed, families become a mirror that helps students see a diversifying American society and a globalizing world.

Theories of Love Development, Maintenance, and Dissolution Oliver C. S. Tzeng, 1992-06-30 Love presents itself as a complex, multidimensional phenomenon that has been considered one of the most intense and powerful of all human emotions. This book is a comprehensive compilation, analysis, and evaluation of existing views and theories about love development, maintenance, and dissolution. Part I introduces a proposed psychosemantic paradigm and its two love-specific models as a common theoretical framework for evaluating the major theories regarding love and intimate relationships. Part II presents 21 love formation and development theories organized under seven paradigms for evaluation: personality attribution, introspective approach, psychophysiology, behavioral reinforcement, comparative/cognitive judgment, psychometric development, and structural components. Part III presents theories of love maintenance and conflict (a family system paradigm and its member approaches), love and marriage dissolution, and theological perspectives on human love and intimate relations. Part IV introduces a common methodological framework for generating a summative evaluation, in terms of major strengths and weaknesses, of contemporary love theorizations. It also suggests future directions for developing love studies as a comprehensive, multidisciplinary scientific discipline.

Encyclopedia of Relationships Across the Lifespan Jeffrey S. Turner, 1996 Illustrating how relationships change throughout the course of human development from family interactions and friendships to dating and work relationships, this study encompasses a range of topics including ageing experiences, divorce, family violence, gender roles and parenthood.

Triangle Of Love Robert J. Sternberg, 1988-11-08 A psychologist's view of the 3 essential core ingredients of love: intimacy, passion and commitment.

GIS Cartography Gretchen N. Peterson, 2009-04-06 Maps, either printed or digital, can create effective communication with bosses, clients, other scientists, and the public. However, entry level GISers often find that map design was given short shrift in their pre-professional life. It is time for the GIS field, which is maturing in other ways, to improve its skills in this area. Based on the auth

Romantic Love and Sexual Behavior Victor C. De Munck, 1998-04-16 Westerners believe that love makes life worth living; that sex is a natural desire different in kind from love; and that only cynics reduce our love life to a calculation of economic or genetic factors. In this volume, essays explore these and other assumptions about the relationship between romantic love and sex. This represents the first interdisciplinary social science study of love and sex. Contributors ask and

answer questions such as: Is love just sex idealized, or is it a transcendent and divine emotion? Is love a cultural construct that is shared by members of the same culture, or is it a matter of personal taste? What keeps promiscuous people from using condoms even when they know they are at risk? Are black professional men so rare that their conceptions of love and sex differ from those of white professional men? Are brutal sexual fantasies an exclusively male domain, and are they always excluded from love fantasies among normal adolescents? Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy? Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate? Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation? Is rape perceived as more acceptable when the rapist says he was motivated by love? What do cult movements and romantic love have in common? As they attempt to answer these and other questions, the authors extend our understanding of the variety of ways that love and sex are conceptualized, connected, or separated.

Romantic Love Susan S. Hendrick, Clyde Hendrick, 1992-06-10 Is love a uniquely human endeavor? Is romantic love universally felt ... or is it a cultural phenomenon? Can we control it? Love is of concern to nearly everyone--yet it is rarely understood. Drawing material from history, psychology, sociobiology, sociology, philosophy, family studies, and other disciplines, the authors provide an overview to aid readers in understanding the complexity--and ultimate elusiveness--of romantic love. Chapters in this fascinating volume encompass a wide range of material, covering the history of love; theories and research on love; and an explanation of the meaning of love as we practice it in our everyday lives. Romantic Love will benefit students, researchers and professionals by presenting the most recent empirical work on the topic and pointing the way toward more exciting research and applications. This engagingly written little volume presents a social psychological approach to romantic love, but also brings to bear important facts and concepts from sociobiology, philosophy, history, family studies, and sociology. It is part of a series of short-focused volumes dealing with aspects of close relationships and would make excellent supplementary reading for undergraduate courses in marriage and the family, close relationships, social psychology, or human sexual behavior.--Journal of Marriage & The Family.

Marriages and Families Mary Ann Schwartz, Barbara Marlene Scott, 2003 Taking an historical, cross-cultural, and global approach, this book focuses on the link between social structure and the everyday lives of people's diverse experiences of marriages, families, and intimate relationships. It shows how contemporary families go well beyond the traditional, heterosexual, two-parent, white, middle class family and heterosexual legally-sanctioned marriage. It challenges the assumption that one culture's way of doing things is the natural or right way; shows how marriage and family life have

changed historically over time and from place to place; and how political and economic globalization impacts families worldwide. Features extensive boxed material accompanied by questions for personal reflection. Marriages and Families Over Time. Ways of Studying and Explaining Marriages and Families. Understanding Gender: Its Influence In Intimate Relationships. The Many Faces of Love. Dating, Coupling, and Mate Selection. Sexuality and Intimate Relationships. Nonmarital Lifestyles. The Marriage Experience. Reproduction and Parenting. Evolving Work and Family Structures. Violence and Abuse. The Process of Uncoupling: Divorce in the United States. Remarriage and Remarried Families. Families in Later Life. Marriages and Families in the Twenty-first Century: U.S. and World Trends. For anyone interested in marriage and family dynamics, including individuals, counselors, nurses, social workers, home economists, etc.
