ON THE ARCHITECTURE OF WORDS. APPLICATIONS OF MEANING STUDIES GODED RAMBAUD Margarita ,IBÁÑEZ MORENO Ana ,HOSTE Veronique ,MATTENS Sil ,DE CONINCK Peter ,2015-02-26 In light of today's extensive use of digital communication, this volume focuses on how to understand and manage the various types of linguistically-based products that facilitate the use and extraction of information. Including conceptual and terminological databases, digital dictionaries, thesauri, language corpora, and ontologies, they all contribute to the development and improvement of language industries, such as those devoted to automatic translation, knowledge management, knowledge retrieval, linguistic data analysis, and so on. As the theoretical background underlying these applications is outlined in detail in the earlier chapters of the book, the reader is able to establish the necessary links between the various but related kinds of linguistic -and, in particular, semantic- applications. A general review of several theories and linguistic models that influence the practical application of Meaning studies to the new technologies is also included. This book is aimed at students and researchers of Linguistics, as well as those with a basic knowledge of Linguistics and Semantics who are interested in the on-going development of the handling of meaning and its practical usage

La mente no escolarizada : cómo piensan los niños y cómo deberían enseñar las escuelas Howard Gardner,2013-09 La solución al problema que presenta Howard Gardner en este libro pasa, evidentemente, por la reestructuración de nuestras escuelas, pero en ningún momento desde un punto de vista teórico o alejado de la realidad, sino entendida como una consecuencia lógica de la práctica educativa. De este modo, acercándose a las investigaciones más recientes sobre el terreno del desarrollo cognitivo, Gardner acaba presentando una imagen convincente y dinámica de la mente en acción del niño, basada tanto en espectaculares experimentos llevados a cabo en las aulas y extraídos de ámbitos tan diversos como la física, la historia y las letras, como en la elaboración de modelos educativos fundados en el aprendizaje de los oficios. Las conclusiones son claras: los estudiantes de todas las edades suelen ignorar los temas que les enseñan en las aulas por la sencilla razón de que ellos ya disponen de teorías plenamente acabadas que les ayudan a dar un sentido al mundo, pero que a la vez nadie se ocupa de fomentar o alimentar.

Los intelectuales mexicanos frente al poder estadounidense Luis Ochoa Bilbao,2011 La presente obra ayuda a entender

ese imaginario colectivo que hay en México sobre Estados Unidos en los últimos años, centrándose en las aportaciones hechas por la élite intelectual mexicana contemporánea e ilustrando el debate a principios del siglo XXI. El autor hace un examen agudo y crítico de la traslación ideológica que se observó en los últimos 30 años en los intelectuales mexicanos. Comprende los artículos de opinión emitidos en los diarios más influyentes del país, selección que se hizo de acuerdo con un examen de las tendencias políticas e ideológicas expresadas. A lo largo de la obra, el lector podrá advertir que en el periodo examinado (de la invasión a Panamá hasta la segunda guerra con Irak) se va transformando el perfil ideológico y ocupacional de los intelectuales dominantes en los medios escritos de comunicación.

El martillo y el espejo Emilio José Gallardo Saborido,2009 El martillo y el espejo: directrices de la política cultural cubana, indaga en las relaciones entre poder político, intelectualidad y creación literaria en la Revolución Cubana. Este recorrido se sustenta en una serie heterogénea de materiales y fuentes que incluyen desde textos de Fidel Castro y Ernesto Che Guevara hasta el análisis de obras dramáticas, narrativas y poéticas, pasando por la revisión de controversias en revistas del momento o entrevistas a actores implicados en la construcción de este campo político-cultural.
