*Infectious Diseases of South Korea 2010 edition* Stephen Berger,GIDEON Informatics,2010-09-17 Infectious Diseases of South Korea is one in a series of GIDEON ebooks which summarize the status of individual infectious diseases, in every country of the world. Data are based on the GIDEON web application ([www.gideononline.com](http://www.gideononline.com)) which relies on standard text books, peer-review journals, Health Ministry reports and ProMED, supplemented by an ongoing search of the medical literature. Chapters are arranged alphabetically, by disease name. Each section is divided into four sections: 1. Descriptive epidemiology 2. Summary of clinical features 3. Status of the disease in South Korea 4. References There are 347 generic infectious diseases in the world today. 217 of these are endemic, or potentially endemic, to South Korea. A number of other diseases are not relevant to South Korea and have not been included in this book. In addition to endemic diseases, all published data regarding imported diseases and infection among expatriates from South Korea are included.

*North Korea* Hazel Smith, 2015-04-06 In this historically grounded, richly empirical study of social and economic transformation in North Korea, Hazel Smith evaluates the 'marketization from below' that followed the devastating famine of the early 1990s, estimated to be the cause of nearly one million fatalities. Smith shows how the end of the Cold War in Europe and the famine brought radical social change to all of North Korean society. This major new study analyses how marketization transformed the interests, expectations and values of the entire society, including Party members, the military, women and men, the young and the elderly. Smith shows how the daily life of North Koreans has become alienated from the daily pronouncements of the North Korean government. Challenging stereotypes of twenty-five million North Koreans as mere bystanders in history, Smith argues that North Koreans are 'neither victims nor villains' but active agents of their own destiny.
