La consulta espiritual y física del pueblo kággaba Anghie, Prado Mejía,2020-12-30 Este libro ilustra cómo se ha implementado la política pública de los Planes de Salvaguardas en la etnia kággaba. En el Caribe colombiano, los kággaba, al igual que otros pueblos serranos, fueron identificados por la Corte Constitucional de Colombia en alto riesgo de extinción física y cultural a causa del conflicto armado y otras expresiones de violencia. La política pública está destinada a garantizar la atención, protección y salvaguarda de las etnias, pero no la reparación, una omisión cuestionada por la etnia en distintos escenarios de discusión. El libro posibilita una aproximación a la interpretación y la resignificación de dicha política por parte de esta etnia del macizo caribeño de Colombia.

Theatre of the Borderlands Iani del Rosario Moreno,2015-05-27 Theatre of the Borderlands: Conflict, Violence, and Healing is an enlightening and encompassing study that focuses on how dramatists from the Northern Mexico border territories write about theater. The plays analyzed in this study are representative of the most important Northern Border playwrights whose plays' themes present the US-Mexico Borderlands in a socio-historical and political context. The most important themes observed include topics that engage in discussions of: the indigenous, Border crossings, heroes and folk saints, the city of Tijuana, and violence in the Borderlands, to name a few. These themes have led to the birth of the Teatro del Norte movement, a group of determined playwrights insistent on presenting dramaturgical themes that show the bond between their particular geographies, histories, socio-political and economic situations, thereby giving birth to an original voice and new aesthetic of representation. Dealing with the topics already mentioned, and pairing them with more timely ones like immigration reform, namely, this study can serve as an invaluable resource to many interdisciplinary academic settings, and can grant an eye-opening insight to Border relations through several critical readings.

Un largo camino a casa Carolina Muñoz,2023-03-01 Un largo camino a casa relata del recorrido de la autora para llegar de nuevo a su propio ser. Buscamos afuera, sin entender que todo está adentro. El camino es hacia adentro. Conectar con el vacío, con el silencio, darle lugar a ese espacio fértil para que la información que llevamos dentro empiece a ser recordada. Nuestro centro vacío se vuelve canal y nos re-conecta con la fuente original, la mente superior, la conciencia

universal. Esta obra es un recorrido expansivo que termina llevándome de nuevo a nosotros mismos, a nuestra sabiduría interior y al reconocimiento de que todo lo que buscamos fuera se halla en nuestro interior. Allí están todas las respuestas.

Magia del caos Carlos Atanes,2018

Magia del Caos Descifrada- Conocimiento es Poder Asamod Ka,2024-07-14 El libro es original (no más de lo mismo). El autor, como un mago, expresó su opinión personal sobre toda la obra. No incluye los antiguos y polvorientos rituales de la Aurora Dorada, la Goetia judía ni los hechizos de egregores del Necronomicon de H.P Lovecraft. Esta obra contiene rituales nuevos y únicos, inspirados en la magia sumeria y egipcia, adaptados a la magia caoísta, Ógdoade egipcia, Isfet, Seth y otras deidades del caos. Contiene correlaciones entre rituales, sigilismo y gnosis con la física cuántica. Contiene un extenso y completo capítulo sobre Magia Memética, así como pautas para el empoderamiento personal. Es un libro completo, con mucha información práctica, escrito por un ser humano real y practicante de magia. Mantras egipcios hekau para el empoderamiento personal. La obra también analiza la relación entre la magia y otras áreas, como la psicología, el chamanismo, el trabajo de las sombras con los arquetipos egipcios, la adivinación con la caosesfera, aportando una visión amplia de la práctica de la Magia del Caos.

Magick in Theory and Practice The Master Therion, EXISTENCE, as we know it, is full of sorrow. To mention only one minor point: every man is a condemned criminal, only he does not know the date of his execution. This is unpleasant for every man. Consequently every man does everything possible to postpone the date, and would sacrifice anything that he has if he could reverse the sentence. Practically all religions and all philosophies have started thus crudely, by promising their adherents some such reward as immortality. No religion has failed hitherto by not promising enough; the present breaking up of all religions is due to the fact that people have asked to see the securities. Men have even renounced the important material advantages which a well-organized religion may confer upon a State, rather than acquiesce in fraud or falsehood, or even in any system which, if not proved guilty, is at least unable to demonstrate its innocence. Being more or less bankrupt, the best thing that we can do is to attack the problem afresh without preconceived ideas. Let us begin by doubting every statement. Let us find a way of subjecting every statement to the test of experiment. Is there any truth at all in the claims of various religions? Let us examine the question. Our original difficulty will be due to the enormous wealth of our material. To enter into a critical examination of all systems would be an unending task; the cloud of witnesses is too great. Now each religion is equally positive; and each demands faith. This we refuse in the absence of positive proof. But we may usefully inquire whether there is not any one thing upon which all religions have agreed: for, if so, it seems possible that it may be worthy of really thorough consideration. It is certainly not to be found in dogma. Even so simple an idea as that of a supreme and eternal being is denied by a third of the human race. Legends of miracle are perhaps universal, but these, in the absence of demonstrative proof, are repugnant to common sense. But what of the origin of religions? How is it that unproved assertion has so frequently compelled the assent of all classes of mankind? Is not this a miracle? There is, however, one form of miracle which certainly happens, the influence of the genius. There is no known analogy in Nature. One cannot even think

of a super-dog transforming the world of dogs, whereas in the history of mankind this happens with regularity and frequency. Now here are three super-men, all at loggerheads. What is there in common between Christ, Buddha, and Mohammed?

La Magia del Caos Victor Rojas,2023-04-08 El caos no es, en sí mismo, un sistema o una filosofía. Es más bien una actitud que uno aplica a su magia y filosofía. Es la base de toda la magia, ya que es la fuerza creativa primordial. Un mago del caos aprende una variedad de técnicas mágicas, normalmente tantas como pueda acceder, pero ve más allá de los sistemas y dogmas a la física que hay detrás de la fuerza mágica y utiliza cualquier método que le resulte atractivo. El Mago del Caos busca entender las leyes naturales que hay detrás del funcionamiento de la magia, y las razones que hay detrás del uso del ritual en la realización de un trabajo mágico.
