*Building Corporate Identity, Image and Reputation in the Digital Era* T C Melewar, Charles Dennis, Pantea Foroudi, 2021-07-29 Brands - corporate, products, service - today are collectively defined by their customers, deriving from personal experiences and word of mouth. This book acts as a forum for examining current and future trends in corporate branding, identity, image and reputation. Recognising the complexity and plurality at the heart of the corporate branding discipline, this book fills a gap in the literature by posing a number of original research questions on the intrinsic nature of corporate branding ideas from corporate (external) and organisation (internal) identity perspectives as they relate to brand management, corporate reputation, marketing communications, social media, smart technology, experiential and sensory marketing. It incorporates current thinking and developments by both multidisciplinary academics and practitioners, combining a comprehensive theoretical foundation with practical insights. The text will serve as an important resource for the marketing, identity and brand practitioners requiring more than anecdotal evidence on the structure and operation of stakeholders communication in different geographical areas. It determines current practices and researches in diverse areas, regions and commercial and non-commercial sectors across the world. The book provides scholars, researchers and postgraduate students in business and marketing with a comprehensive treatment of the nature of relationships between companies, brands and stakeholders in different areas and regions of the world.

*Strategic Integrated Marketing Communication* Larry Percy, 2008 Integrated Marketing Communications is planning in a systematic way to determine the most effective and consistent message for appropriate target audiences. This comprehensive new textbook deals with all aspects of Integrated Marketing Communication from a strategic perspective.

Strategic Integrated Marketing Communications Larry Percy, 2023-03-03 This book provides a disciplined, systematic look at what is necessary to the planning and implementation of an effective Integrated Marketing Communications (IMC) programme. Throughout, attention is paid to balancing theory with practical application, how to successfully implement theory for effective communication. Step-by-step, knowledge and understanding builds through the book, starting by laying a foundation to provide context, looking at the role of IMC in building brands and strengthening companies. The book then considers what goes into developing and executing effective messages, and how to ensure that they are consistent and consistently delivered, regardless of media. A detailed, practical overview of the strategic planning process is provided,

illustrated by numerous examples and cases, along with 'desktop' tools and worksheets for developing and implementing an IMC plan. The 4th edition of this classic textbook has been fully updated throughout, and includes: Updated and expanded coverage of digital media, including issues relating to privacy and media strategy New sections on setting campaign budgets, brand architecture, target audience action objectives, social marketing communication, and such practices as gamification and experiential marketing Extended content on international advertising and shared cultural values The introduction of a channels-based typology of marketing communication Updated international examples and case studies throughout. A comprehensive and accessible guide to the steps of planning and developing an effective IMC campaign, this book should be core reading for students studying Integrated Marketing Communications, Strategic Communications, Principles of Advertising, Media Planning and Brand Management.
