Migration and Media Lorella Viola,Andreas Musolff,2019-03-07 The socio-discursive landscape surrounding the migration debate is characterised by a growing sense of crisis in both personal and collective identities. From this viewpoint, discourses about immigration are also always attempts at reconstructing the threatened 'home identity' of the respective host society. It is such attempts at reasserting identity-in-crisis (due to migration) that are the focus of the volume *Migration and Media: Discourses about identities in crisis*. This four-part book explores the representational strategies used to frame current migration debates as crises of identity, collective and individual. It features fourteen case-studies of varying sets of data including print media texts, TV broadcasts, online forums, politicians' speeches, legal and administrative texts, and oral narratives, drawn from discourses in a range of languages - Croatian, English, French, German, Greek, Italian, Lithuanian, Polish, Russian, Serbian, Slovenian, Spanish, and Ukrainian - , and it employs different discourse-analytical methods, such as Argumentation and Metaphor Analysis, Gendered Language Studies, Corpus-assisted Semantics and Pragmatics, and Proximization Theory. Such a diverse range of sources, languages, and approaches provides innovative methodological and theoretical analysis on migration and identity which will be of interest to scholars, students, and policy makers working in the fields of migration studies, media studies, identity studies, and social and public policy. As of January 2023, this e-book is freely available, thanks to the support of libraries working with Knowledge Unlatched.

Ukraine Over the Edge Gordon M. Hahn,2018-01-14 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making. Two great schisms shaped events: one within Ukraine, its western and southeastern parts divided along cultural and political lines; the other was driven by geopolitical factors. Competition between Russia and the West

exacerbated Ukraine's divisions. This study focuses on the historical background and complex causality of the crisis, from the rise of mass demonstrations on Kiev's Maidan Nezalezhnosti (Independence Square) to the making of the post-revolt regime. In the context of a new cold war, the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers' massacre, the ouster of President Viktor Yanukovich, and Russia's seizure of Crimea and involvement in the civil war in the eastern region of Donbass.

Beyond Nature And Nurture Peter Baofu, 2009-03-26 Why are some individuals relatively more successful than others in achievement? And why are some countries (or regions), for that matter, relatively more successful than others in development? Contrary to the conventional wisdom held by many, Dr. Baofu argues that the nature-nurture debate is misleading and faulty, since his “transcendent approach” is to show how and why the two are closely intertwined in producing the behavioral differences as often seen in individual human endeavors on the micro scale, and for that matter, in country (or regional) endeavors on the macro one—without, however, committing “the compromise fallacy” as often seen in an in-between alternative. The debate also obscures something more tremendous in the long run, in relation to the emergence of what Dr. Baofu originally proposed as the “post-human” world that humans have never known, when human genes will no longer exist. Human genes have their days numbered.
