Five Life Lessons from the Akashic Records Dr. Yana Mileva, 2022-09-01 “We all have a unique life path and obstacles we face along the way. However, we are all human and we all have the same deep desires for radiant health, endless abundance, true love, and fulfilling life purpose. In this book the author, Dr. Yana Mileva, summarizes the five most important life lessons the lords of the Akashic records have given her and her clients throughout the years. The Akashic records are the universal library, the memory of God, which contains information about all that has ever happened, all that is currently happening, and the potential for all that could happen in the future. Reading through the pages of this book, not only will you find specific, down-to-earth advice on how to resolve your most serious life problems, but also get inspired to look deep inside your soul and recognize the connection to the divine. Take this book in your hands and awaken to your true self.”

The Monkey in the Bodhi Tree Jason Serle, 2025-02-25 Unleash the radical, transformative power at the heart of the world's great wisdom traditions. Of the many paths up the mountain, that of crazy-wisdom, although one of the lesser travelled, presents a dramatic and formidable climb to those that are so inclined. Now for the first time, the true spiritual landscape of the wise-fool has been laid bare and its features and principal landmarks revealed. Written in two parts, loosely based on the theory and practice of crazy-wisdom, *The Monkey in the Bodhi Tree* is the first comprehensive look at this universal phenomenon, from its origins and development to the lives of its greatest adepts and luminaries. In addition to the theoretical foundations laid down in Part I, Part II deals with its practice and aims to demonstrate crazy-wisdom in action. To this end, 151 teaching tales from around the world have been meticulously gathered and retold to illustrate the methods of the great masters and adepts - stories that not only give practical insight but also, like Zen koans, can be used as contemplative tools to illuminate and provoke epiphany. From the enigmatic Mahasiddhas of ancient India to the eccentric Taoist poet-monks of China, from the uncompromising insights of the Buddhist Tantrikas to the unconventional wisdom of Sufi heretics and the utter surrender to God displayed by the Fools for Christ, this book will take you to a place where the boundaries of logic and reason dissolve and enlightenment awaits those daring enough to venture forth.
