*Indian Stereotypes in TV Science Fiction* Sierra S. Adare,2009-08-17 According to an early 1990s study, 95 percent of what college students know about Native Americans was acquired through the media, leading to widespread misunderstandings of First Nations peoples. Sierra Adare contends that negative Indian stereotypes do physical, mental, emotional, and financial harm to First Nations individuals. At its core, this book is a social study whose purpose is to explore the responses of First Nations peoples to representative Indian stereotypes portrayed within the TV science fiction genre. Participants in Adare's study viewed episodes from My Favorite Martian, Star Trek, Star Trek: Voyager, Quantum Leap, The Adventures of Superman, and Star Trek: The Next Generation. Reactions by viewers range from optimism to a deep-rooted sadness. The strongest responses came after viewing a Superman episode's depiction of an evil medicine man who uses a ceremonial pipe to kill a warrior. The significance of First Nations peoples' responses and reactions are both surprising and profound. After publication of *Indian Stereotypes in TV Science Fiction*, ignorance can no longer be used as an excuse for Hollywood's irresponsible depiction of First Nations peoples' culture, traditions, elders, religious beliefs, and sacred objects.

**Colonial Soldiers in Europe, 1914-1945** Eric Storm,Ali Al Tuma,2015-12-22 During the first half of the twentieth century, European countries witnessed the arrival of hundreds of thousands of colonial soldiers fighting in European territory (First and Second World War and Spanish Civil War) and coming into contact with European society and culture. For many Europeans, these were the first instances in which they met Asians or Africans, and the presence of Indian, Indo-Chinese, Moluccan, Senegalese, Moroccan or Algerian soldiers in Europe did not go unnoticed. This book explores this experience as it relates to the returning soldiers - who often had difficulties re-adapting to their subordinate status at home - and on European authorities who for the first time had to accommodate large numbers of foreigners in their own territories, which in some ways would help shape later immigration policies.
