Museums and the Working Class Adele Chynoweth, 2021-09-28 *Museums and the Working Class* is the first book to take an intersectional and international approach to the issues of economic diversity and class within the field of museum studies. Bringing together 16 contributors from eight countries, this book has emerged from the significant global dialogue concerning museums' obligation to be inclusive, participate in meaningful engagement and advocate for social change. As part of the push for museums to be more accessible and inclusive, museums have been challenged to critically examine their power relationships and how these are played out in what they collect, whose stories they exhibit and who is made to feel welcome in their halls. This volume will further this professional and academic debate through the discussion of class. Contributions to the book will also reinforce the importance of the working class – not only in collection and exhibition policy, but also for the organisational psychology of institutions. *Museums and the Working Class* is essential reading for scholars and students of museum, gallery and heritage studies, cultural studies, sociology, labour studies and history. It will also serve as a source of honest and research-led inspiration to practitioners working in museums, galleries, libraries, archives and at heritage sites around the world.

Which Side Are You On? James Sullivan, 2018-12-03 When he emerged from the nightclubs of Greenwich Village, Bob Dylan was often identified as a protest singer. As early as 1962, however, Dylan was already protesting the label: I don't write no protest songs, he told his audience on the night he debuted *Blowin' in the Wind*. Protest music is largely perceived as an unsubtle art form, a topical brand of songwriting that preaches to the converted. But popular music of all types has long given listeners food for thought. Fifty years before Vietnam, before the United States entered World War I, some of the most popular sheet music in the country featured anti-war tunes. The labor movement of the early decades of the century was fueled by its communal songbook. The Civil Rights movement was soundtracked not just by the gorgeous melodies of *Strange Fruit* and *A Change Is Gonna Come*, but hundreds of other gospel-tinged ballads and blues. In *Which Side Are You On*, author James Sullivan delivers a lively anecdotal history of the progressive movements that have shaped the growth of the United States, and the songs that have accompanied and defined them. Covering one hundred years of social conflict and progress across the twentieth century and into the early years of the twenty-first, this book reveals how protest songs have given voice to the needs and challenges of a nation and asked its citizens to take a stand—asking the question Which side are

you on?

Homer Simpson Goes To Washington Joseph J. Foy, 2008-08-22 "Informative and entertaining . . . convincingly argue[s] that an interest in popular culture can counterbalance the growing tide of political apathy." —Publishers Weekly While pundits may accuse popular culture of brainwashing, indoctrinating, distracting, or dumbing down the masses, the fact is that Americans have long turned to entertainment sources to make sense of politics, through television shows such as *The Simpsons*, *The West Wing*, *The Daily Show*, and *Chappelle's Show* and films such as *Election*, *Bulworth*, and *Wag the Dog*. In *Homer Simpson Goes to Washington*, Joseph J. Foy has assembled a multidisciplinary team of scholars with backgrounds in political science, philosophy, law, cultural studies, and music. Their essays tackle common assumptions about government and explain fundamental concepts such as civil rights, democracy, and ethics—through the lens of drama and comedy.

Voices from the Mountains Guy Carawan, Candie Carawan, 1996 A rich mosaic of photographs, words, and songs, *Voices from the Mountains* tells the turbulent story of the Appalachian South in the twentieth century. Focusing on the abuses of the coal industry and the grassroots struggle against mine owners that began in the 1960s, Guy and Candie Carawan have gathered quotations from a variety of sources; words and music to more than fifty ballads and songs, laments and satires, hymns and protests; and more than one hundred and fifty photographs of longtime Appalachian residents, their homes, their countryside, the mines they work in, and the labor battles they have fought. The voices that speak out in these pages range

from the mountain people themselves to such well-known artists as Jean Ritchie, Hazel Dickens, Harriet Simpson Arnow, and Wendell Berry. Together they tell of the damage wrought by strip mining and the empty promises of land reclamation; the search for work and a new life in the North; the welfare rights, labor, antipoverty, and black lung movements; early days in the mines; disasters and negligence in the coal industry; and protest and change in the coal fields. Dignity and despair, poverty and perseverance, tradition and change--Voices from the Mountains eloquently conveys the complex panorama of modern Appalachian life.

Noisy Memory Brian Harnetty, 2025-08-26 Composer and sound artist Brian Harnetty explores the remarkable everyday stories of sound recordings and shows us a new way to listen to the past. From murder ballads and oral histories in Appalachian Ohio, to the Afrofuturistic music of Sun Ra in Chicago, to the recorded thoughts of monk and writer Thomas Merton in Kentucky, Harnetty reveals rich historical contexts of the recordings and introduces us to the people and places connected to them. The result is a new, interdisciplinary approach to sound archives, listening, creative practice, and community engagement. Drawing on his two-decade career as an artist and researcher, Harnetty builds upon and expands the tradition of composers and artists writing about their work. A unique combination of ethnography, memoir, philosophical text, and meditation on the creative process, *Noisy Memory* presents both scholarly and innovative approaches to ethically working with sound archives.

Which Side Are You On? The Story of a Song George Ella Lyon, 2014-01-01 *Which Side Are You On?* tells the story of the classic union song that was written in 1931 by Florence Reece in a rain of bullets. It has been sung by people fighting for their rights all over the world. Florence's husband Sam was a coal miner in Kentucky. Many of the coal mines were owned by big companies, who kept wages low and spent as little money on safety as possible. Miners lived in company houses on company land and were paid in scrip, good only at the company store. The company owned the miners sure as sunrise. That's why they had to have a union. Miners went on strike until they could get better pay, safer working conditions, and health care. The company hired thugs to attack union organizers like Sam Reece. George Ella Lyon tells this hair-raising story through the eyes of one of Florence's daughters, a dry-witted, pig-tailed gal whose vantage point is from under the bed with her six brothers and sisters. The thugs' bullets hit the thin doors and windows of the company house and the kids lying low wonder whether they're going to make it out of this alive; wonder exactly if this strike will make their lives better or end them, but their mother keeps scribbling and singing. We need a song, she tells her kids. That's not at all what they think they need. Graphic novelist Christopher Cardinale brings Florence's triumphant story to life in true rip-roaring union style.

Selected as an IRA Notable Book for a Global Society and a 2012 Skipping Stones Honor Book.

On the Battle-lines, 1919-1939 Art Shields, 1986 Volume 2 of Art Shield's life story covers 1919-1939, the miners' battle against the coal barons, struggles in the South, the Seattle general strike, the IWW San Pedro strike, the battle to build the CIO, the Spanish Civil War, and more. Exciting labor reportage at its best.
