C. Edward Wall

**Adventure Capitalist** Jim Rogers, 2004-12-07 Drive . . . and grow rich! The bestselling author of *Investment Biker* is back from the ultimate road trip: a three-year drive around the world that would ultimately set the Guinness record for the longest continuous car journey. In *Adventure Capitalist*, legendary investor Jim Rogers, dubbed “the Indiana Jones of finance” by Time magazine, proves that the best way to profit from the global situation is to see the world mile by mile. “While I have never patronized a prostitute,” he writes, “I know that one can learn more about a country from speaking to the madam of a brothel or a black marketeer than from meeting a foreign minister.” Behind the wheel of a sunburst-yellow, custom-built convertible Mercedes, Rogers and his fiancée, Paige Parker, began their “Millennium Adventure” on January 1, 1999, from Iceland. They traveled through 116 countries, including many where most have rarely ventured, such as Saudi Arabia, Myanmar, Angola, Sudan, Congo, Colombia, and East Timor. They drove through war zones, deserts, jungles, epidemics, and blizzards. They had many narrow escapes. They camped with nomads and camels in the western Sahara. They ate silkworms, iguanas, snakes, termites, guinea pigs, porcupines, crocodiles, and grasshoppers. Best of all, they saw the real world from the ground up—the only vantage point from which it can be truly understood—economically, politically, and socially. Here are just a few of the author’s conclusions: • The new commodity bull market has started. • The twenty-first century will belong to China. • There is a dramatic shortage of women developing in Asia. • Pakistan is on the verge of disintegrating. • India, like many other large nations, will break into several countries. • The Euro is doomed to fail. • There are fortunes to be made in Angola. • Nongovernmental organizations (NGOs) are a scam. • Bolivia is a comer after decades of instability, thanks to gigantic amounts of natural gas. *Adventure Capitalist* is the most opinionated, sprawling, adventurous journey you’re likely to take within the pages of a book—the perfect read for armchair adventurers, global investors, car enthusiasts, and anyone interested in seeing the world and understanding it as it really is.

**Law and the Political Economy of Hunger** Anna Chadwick, 2019-01-31 This book is an inquiry into the role of law in the contemporary political economy of hunger. In the work of many international institutions, governments, and NGOs, law is represented as a solution to the persistence of hunger. This presentation is evident in the efforts to realize a human right to adequate food, as well as in the positioning of law, in the form of regulation, as a tool to protect society from 'unruly' markets. In this monograph, Anna Chadwick draws on theoretical work from a range of disciplines to challenge accounts that portray law's role in the context of hunger as exclusively remedial. The book takes as its starting point claims that financial traders 'caused' the 2007-8 global food crisis by speculating in financial instruments linked to the prices of staple grains. The introduction of new regulations to curb the 'excesses' of the financial sector in order to protect the food insecure reinforces the dominant perception that law can solve the problem. Chadwick investigates a number of different legal regimes spanning public international law, international economic law, transnational governance, private law, and human rights law to gather evidence for a counterclaim: law is part of the problem. The character of the contemporary global food system—a food system that is being progressively 'financialized'—owes everything to law. If world hunger is to be eradicated, Chadwick argues, then greater attention needs to be paid to how different legal regimes operate to consistently privilege the interests of the wealthy few over the needs of poor and the hungry.
