Magic, Monsters, and Make-Believe Heroes Douglas E. Cowan, 2019-01-29 Magic, Monsters, and Make-Believe Heroes looks at fantasy film, television, and participative culture as evidence of our ongoing need for a mythic vision—for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story. Why do we tell and retell the same stories over and over when we know they can't possibly be true? Contrary to popular belief, it's not because pop culture has run out of good ideas. Rather, it is precisely because these stories are so fantastic, some resonating so deeply that we elevate them to the status of religion. Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons, and from Drunken Master to Mad Max, Douglas E. Cowan offers a modern manifesto for why and how mythology remains a vital force today.

Theology, Religion, and Dungeons & Dragons Scott Donahue-Martens, Brandon Simonson, 2024-12-15 On its 50th anniversary, the tabletop role-playing game Dungeons & Dragons (D&D) has found renewed popularity and a generally positive representation in popular culture. Reflecting on these fifty years of development and history, and looking forward to D&D's bright future, *Theology, Religion, and Dungeons & Dragons: Explorations of the Sacred through Fantasy Worlds* explores the intersection of D&D with the academic disciplines of Theology and Religious Studies. From Tolkien's notion of sub-creation to pedagogical ponderings on hell, readers will uncover deeply theological and religious aspects of Dungeons & Dragons in this volume. Unlike some during the so-called Satanic Panic, the authors of this volume embrace D&D as spiritually and theologically formative. Discussions on alignment and campaign settings like Dark Sun and Ravenloft foreground notions of interrelating and wellbeing, and reflections on communal conceptions of canon and spiritual formation chart paths forward by understanding historical realities. This volume responds to growing interest in the academic study of tabletop role-playing games in general and D&D in specific, and it addresses pressing issues in the academic disciplines of Theology and Religious Studies.

The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us Joe Federer, 2020-09-15 From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology, as well as more than a decade of hands-on experience, to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family, or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn: how to create content that drives sharing and word-of-mouth how brands can fit natively into different types of social channels how to balance branded social presences across different networks why authenticity will only grow in importance to consumers Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative, and, in the end, deliver more effective marketing that provides value.
