JOHN DU. FEU

Teaching and Learning in Further Education Prue Huddleston, Lorna Unwin, 2013 This book addresses strategies for teaching and recording achievement as well as exploring ways in which students learn. Readers are invited, through a case study approach, to consider differing student needs and how they might be served within FE.

**Citizenship and Democracy in Further and Adult Education** Neil Hopkins, 2013-07-30 This book addresses the questions why citizenship education is an important subject for students in further and adult education and why we need democratic colleges to support the study of citizenship education. It investigates the historical roots of further and adult education and identifies how the adoption of citizenship education in the post-compulsory sector can enrich vocational studies in further education and programmes in adult education. It is argued that democratic colleges are vital to ensure that citizenship education informs the decision-making process throughout educational institutions (and as a means of establishing fair and equal representation for important stakeholders). The author has worked in both sectors for over a decade, and uses this experience to offer a blend of educational practice and philosophical investigation. The result is a work that appeals to both teachers in further and adult education as well as academics and students interested in philosophy of education.

*A Level Mathematics for Edexcel: Further Pure FP2* Mark Rowland, 2009-02-04 Oxford A Level Mathematics for Edexcel

covers the latest 2008 curriculum changes and also takes a completely fresh look at presenting the challenges of A Level. It specifically targets average students, with tactics designed to offer real chance of success to more students, as well as providing more stretch and challenge material. This Further Pure 2 book is fully updated to reflect the changes to the new Edexcel specification, meaning that it can now be studied with confidence at A level.

*Edexcel a Level Further Mathematics Statistics* JOHN DU. FEU, 2018-04-27 Exam board: Edexcel Level: A-level Subject: Mathematics First teaching: September 2017 First exams: Summer 2018 Student eTextbooks are downloadable versions of the printed textbook, purchased on a copy-by-copy basis and allocated to students through Dynamic Learning. Our Student eTextbooks link seamlessly with MEI Integral Further Mathematics online resources, allowing you to move with ease between corresponding topics in the eTextbooks and Integral. Integral has been developed by MEI and supports teachers and students with high quality teaching and learning activities, including dynamic resources and self-marking tests and assessments that cover the new specifications. To have full access to the eTextbooks and Integral resources you must be subscribed to both Dynamic Learning and Integral. To subscribe to Integral, visit [www.integralmaths.org](http://www.integralmaths.org). For more information on our eTextbooks and Integral please see the Quick Links box. Develop knowledge and the skills needed to apply reasoning to mathematical problems with this textbook that covers the Statistics content of the new AS and A-level specifications. The content benefits from the expertise of subject specialist Keith Pledger and the support of MEI (Mathematics in Education and Industry). - Ensure targeted development of reasoning and problem-solving skills with practice questions and differentiated exercises that build statistical techniques. - Address the new statistics requirements with questions around the use of large data sets. - Cover the use of technology in mathematics with a variety of questions based around the use of spreadsheets, graphing software and graphical calculators. - Overcome misconceptions and develop insight into problem solving with annotated worked examples. - Consolidate understanding with end-of-chapter summaries of the key points.
