

Foundation Of Israel State

Heinrich Ewald

The Founding Myths of Israel Zeev Sternhell, 2009-10-07 The well-known historian and political scientist Zeev Sternhell here advances a radically new interpretation of the founding of modern Israel. The founders claimed that they intended to create both a landed state for the Jewish people and a socialist society. However, according to Sternhell, socialism served the leaders of the influential labor movement more as a rhetorical resource for the legitimization of the national project of establishing a Jewish state than as a blueprint for a just society. In this thought-provoking book, Sternhell demonstrates how socialist principles were consistently subverted in practice by the nationalist goals to which socialist Zionism was committed. Sternhell explains how the avowedly socialist leaders of the dominant labor party, Mapai, especially David Ben Gurion and Berl Katznelson, never really believed in the prospects of realizing the dream of a new society, even though many of their working-class supporters were self-identified socialists. The founders of the state understood, from the very beginning, that not only socialism but also other universalistic ideologies like liberalism, were incompatible with cultural, historical, and territorial nationalism. Because nationalism took precedence over universal values, argues Sternhell, Israel has not evolved a constitution or a Bill of Rights, has not moved to separate state and religion, has failed to develop a liberal concept of citizenship, and, until the Oslo accords of 1993, did not recognize the rights of the Palestinians to independence. This is a controversial and timely book, which not only provides useful historical background to Israel's ongoing struggle to mobilize its citizenry to support a shared vision of nationhood, but also raises a question of general significance: is a national movement whose aim is a political and cultural revolution capable of coexisting with the universal values of secularism, individualism, and social justice? This bold critical reevaluation will unsettle long-standing myths as it contributes to a fresh new historiography of Zionism and Israel. At the same time, while it examines the past, *The Founding Myths of Israel* reflects profoundly on the future of the Jewish State.

The Creation of Israel Jim Whiting,2008-09 The formation of the State of Israel in 1948 is one of the most important events in recent history. About 3,000 years ago, Israel was a powerful nation. But it soon fell from power and in the second century CE most Jews were forced out of their homeland. Many went to Europe, where they were subject to prejudice and persecution for centuries. By far the worst case was the Holocaust, in which six million Jews were killed. Their suffering accelerated a move toward the development of a Jewish state in what came to be called Palestine. However, Palestine was the home to hundreds of thousands of Arabs. Conflict between the two sides was inevitable. Open warfare broke out after the United Nations voted to partition Palestine into a Jewish state and an Arab state. Though the Israelis achieved their independence, the region has never known true peace.

Congressional Record United States. Congress,1998 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Israel and the Cyprus Question Gabriel Haritos,2023-05-18 Providing a detailed account of Israel's foreign policy towards the Cyprus question between 1946 and the declaration of Cypriot independence in August 1960, Gabriel Haritos examines the international and regional factors which shaped Israel's approach to diplomatic relations with the independent Republic of Cyprus. Based on newly available archival material from the Israeli Ministry of Foreign Affairs, declassified at the author's request, and on archival material collected from both sides of the Cypriot divide, Haritos highlights previously unknown events, and the key personalities involved in Israel's political and diplomatic interactions over the Cyprus question. In doing so, he offers key insights into the Middle Eastern aspect of the unresolved Cyprus conflict.

The Creation of Israel Phillip Margulies,2005 Israel's creation in 1948 was the fulfillment of an ancient dream for the persecuted Jewish people, the culmination of 75 years of Zionist diplomacy and settlement, and a disaster for 700,000 Palestinian refugees. This anthology examines the forces that led to the creation of Israel and the unresolved issues that continue to rivet the world's attention to this small strip of land on the Mediterranean Sea.
