Ielts Writing Task 2-99 Essays - Band 8 Richard Putlack, 2014

Assessing Second Language Writing in Academic Contexts Liz Hamp-Lyons, 1991 This is the first volume to focus on the assessment of second language writing. The collection as a whole provides coverage of all issues in second language writing assessment, starting from the context in which and for which assessment must occur, moving through the aspects of decision-making and design in a writing assessment program, and then considering how the need to evaluate any program on assessment can be carried out. After a discussion of issues of public reporting, an area which will receive increasing attention in the next few years, the volume closes with a discussion of what new issues and answers the future may bring. The book reflects the current belief in direct writing assessment in second language writing assessment. While it is often

expected that those working with ESL students will focus on language error, throughout the book themes of needs, attitudes, ideas and content dominate. For second language writers the use of written language to learn, to create knowledge and to share ideas and beliefs are vitally important.
