*Death in a Consumer Culture* Susan Dobscha,2015-12-22 Death has never been more visible to consumers. From life insurance to burial plots to estate planning, we are constantly reminded of consumer choices to be made with our mortality in mind. Religious beliefs in the afterlife (or their absence) impact everyday consumption activities. *Death in a Consumer Culture* presents the broadest array of research on the topic of death and consumer behaviour across disciplinary boundaries. Organised into five sections covering: The Death Industry; Death Rituals; Death and Consumption; Death and the Body; and Alternate Endings, the book explores topics from celebrity death tourism, pet and online memorialization; family history research, to alternatives to traditional corpse disposal methods and patient-assisted suicide. Work from scholars in history, religious studies, sociology, psychology, anthropology, and cultural studies sits alongside research in marketing and consumer culture. From eastern and western perspectives, spanning social groups and demographic categories, all explore the ubiquity of death as a physical, emotional, cultural, social, and cosmological inevitability. Offering a richly unique anthology on this challenging topic, this book will be of interest to researchers working at the intersections of consumer culture, marketing and mortality.

*The Life and Work of an Atheist Pioneer* Christos Tzanetakos,2011-09-09 Author Christos Tzanetakos adheres to the profound statement of Emile Zola: Civilization will thrive when the last stone from the last church falls on the last priest. This memoir narrates the stories of Tzanetakos lifelong adventures and presents his thoughts, philosophy, and work regarding atheism. Augmented with photos, *The Life and Work of an Atheist Pioneer* tells of Tzanetakos childhood, growing up in Greece with his parents and four siblings, and of the seafaring career that took him around the world for ten years before finally settling in Miami, Florida, in 1969. Here he built his business, married, and started a family with his wife, Alice; he also immersed himself in activism for various social issues. *The Life and Work of an Atheist Pioneer* includes interesting and descriptive details from his life, but also discusses how he became a champion in the cause of the separation of church and state and the advancement of atheism.

**Bakandamiya** Saddiq Dzukogi,

Misguided Notions Garrett Williams, 2011-07-22 Americas public schools are in decline and in need of urgent reform.

Once the envy of the entire world, the American public school system now struggles to keep pace with other industrialized nations and is falling further behind with each passing decade. This disturbing trend raises two important questions: Why did our schools decline? What must we do to make our schools great again? To answer these questions, *Misguided Notions* goes back to the roots of human civilization and retraces the development of education over the last ten thousand years. Along the way, a wise reformer offers warnings based on his eyewitness accounts of the collapses of history's greatest civilizations. The evidence is clear: when schools discard tried and proven principles of education and when society abandons its core values, both will collapse. The commonsense solutions offered in *Misguided Notions* combine proven old-school educational

principles with the advantages of modern technology. Teachers, principals, school board members, parents, community leaders, and politicians perplexed by the lack of answers to the current dilemma in public education can find enlightenment in *Misguided Notions*.
