Americans in Denmark F. Richard Thomas, 1990 A rare look at American immigrants to Denmark that reveals how, for some, the cultural differences between the United States and Denmark can generate creativity. Thomas constructed an 11-point questionnaire designed to find out why American writers, artists, and teachers have chosen to live in Denmark. Of pivotal interest is whether these emigrants from America are happier and doing better, more creative work in Denmark than they were doing at home. The immigrants who tell their stories here are the intellectually curious who have swapped one culture for another, who have dared enter a social and cultural limbo in which they can never be Danes, nor ever truly American again. As Niels Ingwersen, Managing Editor of Scandinavian Studies, notes, The book is about a small group of people, but their reactions, thoughts, and emotions--not least their experience of existential ambiguity--is one that most expatriates know well. These essays, Ingwersen explains, bring out, often eloquently, often poignantly, why the authors left America and why they probably will not return to their native country even though they are quite critical of Denmark and admit that there is much in America that they will miss. In general, these people are not America bashers; some even object to the term expatriate as connoting a lack of patriotism.

Cultural Complexes in Europe Jörg Rasche, Thomas Singer, 2025-03-26 What is going on in Europe? The actual conflicts between its nations or states can be traced back to old and revived cultural complexes. In this book, first compiled in 2016, Jungian analysts explore the cultural identities of their European homelands and nations. This is a new approach to old questions: What makes a people feel at home? How do their traditions and narratives form a cultural Self and identity? How do they differ from one another? Exploring cultural complexes blends knowledge of history, economics, sociology, anthropology, geography, psychology, religious studies, literature, and poetry. But as every complex is built around an emotional core, the study of how cultural complexes live in the psyche is not limited to these disciplines. Each author and reader engages in a confrontation with their emotions, prejudices, and projections. The shape that the ideas and feelings of a cultural complex take in the psyche can be inchoate, rapidly shifting and yet paradoxically long standing, and often quite immune and impermeable to the reason that traditional disciplines of thought would impose on them. These cultural complexes do not necessarily provide a coherent or linear sequencing of facts and events because that is not how they

actually exist and function in the psyche of individuals and groups. At the same time, cultural complexes shape what it means to be a citizen of a particular city, region, or country of Europe. This remarkable book is an important read for Jungian analysts and those interested in Europe's historical and cultural development.

The Danish Directors Mette Hjort, Ib Bondebjerg, 2001 Profiling the canonized figures alongside recently-established filmmakers, this collection features interviews with Lars von Trier, Søren Kragh-Jacobsen, Thomas Vinterberg and Henning Carlsen among many others. It poses questions that engage with ongoing and controversial issues within film studies, which will stimulate debate in academic and filmgoing circles alike. Each interview is preceded by a photograph of the director, biographical information, and a filmography. Frame enlargements are used throughout to help clarify particular points of discussion and the book as a whole is contextualised by an informative general introduction. A valuable addition to the growing library of books on Scandinavian film, national cinema and minority cinema.

Eurotrash David Harsanyi,2021-10-26 Why should America try to be more like countries that are worse in nearly every way? Europe has been declining under the weight of its antiquated institutions, economic fatigue, moral anemia and cultural surrender. Yet American politicians, technocrats, academics, and pundits argue, with increasing popularity, that Americans should look across the Atlantic for solutions to the nation's problems, including on issues like health care, the welfare state, immigration, and a bloated bureaucracy. In Eurotrash, David Harsanyi argues we are looking in the wrong place. By every economic and societal measure, the United States is more tolerant than Europe. It is more welcoming of immigrants, but also far more successful at assimilating them. Minorities do far better in United States. Our economy is dominant. Only one European company appears in top 10 corporate powerhouses in the world and only seven in the top 50. Americans make up nearly half of the list. Americans are far more charitable and happier than Europeans. Our slightly lower life expectancy and our slightly higher infant mortality rate are not a result of substandard care, but a statistical misunderstanding based on the fact we treat every life as one worth saving. In this biting, fast-moving, and well-researched polemic, Harsanyi debunks prevailing notions about European supremacy and makes an unapologetic case for American exceptionalism, offering insight and reasoned arguments to counter current policy prescriptions.

Garrison Keillor Peter A. Scholl,1993 In 1985 Time magazine ran on its cover Garrison Keillor's face superimposed across the fictional town of Lake Wobegon, Minnesota, taking the publication of Keillor's book of the same name as an occasion to raise some hoopla over this radio bard (he was then host of the highly acclaimed A Prairie Home Companion variety show) and humorist nonpareil. Not since Will Rogers has a crackerbarrel philosopher become a national figure, a celebrity. And it is the rare down-home fellow from the prairies (radio's tallest shy person) who also happens to write for the New Yorker. In this lucid, well-researched study Peter A. Scholl follows chronologically the dual career of Garrison Keillor, the pen name Gary Edward Keillor has been using since he was 13, exploring the Minnesotan's double mastery of the arts of storytelling and writing. Scholl looks at how Keillor's writing and conceptions for radio - particularly the News from Lake

Wobegon on A Prairie Home Companion - has influenced his writing. Keillor's humorous sketches and stories have appeared in the New Yorker since 1970 (he was on its staff from 1987 to 1992); his books - Happy to Be Here (1982), Lake Wobegon Days (1985), We Are Still Married (1989), Leaving Home (1987), and WLT: A Radio Romance (1991) - have met critical and popular success. Scholl finds that if Keillor attained his widest acclaim as a yarnspinner in the nineteenth-century traditions of local color and literary comedy - the foremost progenitor of which being Mark Twain - he revitalized those traditions while adopting comic modes and playing roles that had little precedent in eras other than his own. Keillor's being a New Yorker writer has, according to Scholl, almost symmetrically affected the structure and nuance of his oral tales: they represent a cross-pollination between traditional oral storytelling and the verbal artistry of not only the New Yorker writers the young Keillor so admired - James Thurber, S. J. Perelman, A. J. Liebling, and E. B. White - but also such experimentalist writers as Donald Barthelme. Scholl in fact compares the darker side of Keillor's humor with the postmodernism of Barthelme - and, perhaps at the other end of the spectrum, he draws some parallels between Keillor's tales and those of Jean Shepherd, whose fictional town of Hohman, Indiana, has served him in the same way Lake Wobegon has Keillor. In this engaging, balanced literary portrait, Scholl analyzes how Keillor's public career as a radio performer has often put him at odds with his more solitary life as a writer. At least four times Keillor has quit his positions in radio to devote himself more exclusively to writing, and this oscillation between two callings, notes Scholl, reveals a complex ambivalence in Keillor's career - an ambivalence that might just add to the poignancy and uniqueness of the stories Keillor tells.

Survival and Development of Language Communities F. Xavier Vila Moreno,2012-11-09 Too small to be big, but also too big to be really small, medium-sized language communities (MSLCs) face their own challenges in a rapidly globalising world where multilingualism and mobility seem to be eroding the old securities that the monolingual nation states provided. The questions to be answered are numerous: What are the main areas in which the position of these languages is actually threatened? How do these societies manage their diversity (both old and new)? Has state machinery really become as irrelevant in terms of language policy as their portrayals often suggest? This book explores the responses to these and other challenges by seven relatively successful MSLCs, so that their lessons can be applied more generally to other languages striving for long term survival.
