Portuguese Encounters with Sri Lanka and the Maldives Chandra R. de Silva, 2017-03-02 Portuguese Encounters with Sri Lanka and the Maldives: Translated Texts from the Age of the Discoveries is designed to provide access to translations of 16th- and 17th-century documents which illustrate various aspects of this encounter, combining texts from indigenous sources with those from the Portuguese histories and archives. These documents contribute to the growing understanding that different groups of European colonizers - missionaries, traders and soldiers - had conflicting motivations and objectives. Scholars have also begun to emphasize that the colonized were not mere victims but had their own agendas and that they occasionally successfully manipulated colonial powers. The texts in this volume help to substantiate these assertions while also illustrating the changing nature of the interactions. The present volume contains chapters covering the Portuguese arrival in Sri Lanka and their first encounters with the island and its peoples, their subsequent relations with Kandy and Jaffna, and a final chapter on Portuguese relations with the Maldivian Islands. A historical introduction provides the context in which the documents can be read and a select bibliography indicates the most recent and authoritative secondary works on the subject

Global Portuguese , 2025-05-22 Global Portuguese results from conferences convened at the University of London School of Advanced Study to highlight legacies of Portuguese empire in postcolonial societies. Encyclopedia of Linguistics explores the varied perspectives, figures, and methodologies that make up the field.

Ibero-Asian Creoles Hugo C. Cardoso, Alan N. Baxter, Mário Pinharanda Nunes, 2012-11-15 Starting in 1498, contact between Ibero-Romance and Asian languages has taken place along a vast stretch of the coastlines of continental and insular Asia, producing a string of contact varieties which are among the least visible in the field of Creole Studies. This volume, the first one dedicated to the Portuguese- and Spanish-lexified creoles of Asia, brings together comparative studies on various issues across the Ibero-Asian creoles and beyond, by specialists in these languages. This type of cross-linguistic analysis allows progress on many fronts, including the reconstruction of past stages of the languages, the explanation of observed similarities and differences, the identification and consolidation of typological/taxonomic clusters, or the assessment of the linguistic effects of different contact equations. The volume provides a timely window onto aspects of current research on the Ibero-Asian creoles, including unsettled debates and ways in which their study can contribute to advance several areas of linguistic enquiry.

Re-exploring the Links Jorge Manuel Flores, 2007 The island of Ceilao occupied a permanent and singular place in the

political imagination of early modern Portugal. Concurrently, the Portuguese left a strong imprint in the Sri Lankan collective memory of the period. Five centuries later, a group of historians, art historians, anthropologists, and linguists reflect on the multiple dimensions of this phenomenon by rethinking texts and maps, ruined churches and ivory caskets, oral tales and Creole communities. Authored by 15 international scholars, *Re-exploring the Links* is divided in four parts: Political Realities and Cultural Imagination; Religion: Con. ict and Interaction; Space and Heritage: Construction, Representation; Language and Ethnicity, Identity and Memory. While published on the occasion of the Portuguese arrival in Sri Lanka five centuries ago, this book is far from being a celebratory piece. *Re-exploring the Links* does not conform to nationalist models of historical interpretation and refuses both the rhetoric of discovery and the rhetoric of aggression. The aim of the volume is not to celebrate encounters, but to reinvent an academic debate, independent of any political agenda and concerning a history that is Portuguese and Sri Lankan alike.

The Portuguese Empire in Asia, 1500-1700 Sanjay Subrahmanyam, 1993 This text examines the Portuguese empire in Asia between 1500 and 1700. Amongst the areas covered are: early modern Asia - geo-politics and economic change; the mid-16th-century crisis; the empire in retreat, 1610-1665; and Portuguese Asian society

Pidgins and Creoles Jacques Arends, Pieter Muysken, Norval Smith, 1994-12-20 This introduction to the linguistic study of pidgin and creole languages is clearly designed as an introductory course book. It does not demand a high level of previous

linguistic knowledge. Part I: General Aspects and Part II: Theories of Genesis constitute the core for presentation and discussion in the classroom, while Part III: Sketches of Individual Languages (such as Eskimo Pidgin, Haitian, Saramaccan, Shaba Swahili, Fa d'Ambu, Papiamentu, Sranan, Berbice Dutch) and Part IV: Grammatical Features (such as TMA particles and auxiliaries, noun phrases, reflexives, serial verbs, fronting) can form the basis for further exploration. A concluding chapter draws together the different strands of argumentation, and the annotated list provides the background information on several hundred pidgins, creoles and mixed languages. Diversity rather than unity is taken to be the central theme, and for the first time in an introduction to pidgins and creoles, the Atlantic creoles receive the attention they deserve. Pidgins are not treated as necessarily an intermediate step on the way to creoles, but as linguistic entities in their own right with their own characteristics. In addition to pidgins, mixed languages are treated in a separate chapter. Research on pidgin and creole languages during the past decade has yielded an abundance of uncovered material and new insights. This introduction, written jointly by the creolists of the University of Amsterdam, could not have been written without recourse to this new material.

The Portuguese in Sri Lanka and South India Zoltán Biedermann, 2014 Zoltan Biedermann's book explores the Portuguese presence in Sri Lanka and South India with an emphasis on connections, interactions and adaptations. An introduction, six freshly revised case studies and an afterword provide historical insights into the making of Portuguese power in the region and point out new ways forward in the study of the subject. Themes explored include Portuguese diplomacy in Asia, the connected histories of Portugal, Sri Lanka and the Habsburg Empire, the importance of cartography for the development of Iberian ideas of conquest, the political mechanisms that allowed for the incorporation of Sri Lanka into the Catholic Monarchy of Philip II, and the remarkable resilience of elephant hunting and trading activities in Ceylon during the seventeenth and eighteenth centuries. A long chapter delves into the comparative urban histories of Portuguese and Dutch colonial ports in South Asia and reveals intriguing connections between colonialism, local identities and cosmopolitan attitudes. Taken together, the essays in this book question simplistic contrasts between Europe and Asia as well as between the Portuguese and the Dutch empires. The Portuguese in Sri Lanka and South Asia highlights the complex connections between the global and the local in early modern European-Asian interactions.

Languages in Contact Dicky Gilbers, John A. Nerbonne, J. Schaeken, 2000 The present volume includes papers that were presented at the conference Languages in Contact at the University of Groningen (25-26 November 1999). The conference

was held to celebrate the University of St. Petersburg's award of an honorary doctorate to Tjeerd de Graaf of Groningen. In general, the issues discussed in the articles involve pidgins and creoles, minorities and their languages, Diaspora situations, Sprachbund phenomena, extralinguistic correlates of variety in contact situations, problems of endangered languages and the typology of these languages. Special attention is paid to contact phenomena between languages of the Russian Empire / USSR / Russian Federation, their survival and the influence of Russian.

The book challenges the view that Portuguese influence in maritime Asia was only minor.
