Musical Creativity: Insights from Music Education Research Oscar Odena, 2016-04-29 How do we develop musical creativity? How is musical creativity nurtured in collaborative improvisation? How is it used as a communicative tool in music therapy? This comprehensive volume offers new research on these questions by an international team of experts from the fields of music education, music psychology and music therapy. The book celebrates the rich diversity of ways in which learners of all ages develop and use musical creativity. Contributions focus broadly on the composition/improvisation process, considering its conceptualization and practices in a number of contexts. The authors examine how musical creativity can be fostered in formal settings, drawing examples from primary and secondary schools, studio, conservatoire and university settings, as well as specialist music schools and music therapy sessions. These essays will inspire readers to think deeply about musical creativity and its development. The book will be of crucial interest to music educators, policy makers, researchers and students, as it draws on applied research from across the globe, promoting coherent and symbiotic links between education, music and psychology research.

The Musical Dialogue Nikolaus Harnoncourt, 1997 (Amadeus). This collection of lectures, talks, and essays focuses on three major composers of the 17th and 18th centuries.

The Musical Dialogue Nikolaus Harnoncourt, 1989 The musical dialogue between composer and audience is a concept central to the music of the 17th and 18th centuries, discussed here in light of three pivotal composers of the era. In the first half of the book, the author discusses general aspects of the music of Monteverdi, Bach, and Mozart, including the instruments and performance practices of the period. The second half of the book is devoted to an examination of specific works: Monteverdi's L'Orfeo, Il Ritorno d'Ulisse in Patria, and the Marian Vespers; Bach's Brandenburg Concertos, Passions, and the Mass in B minor; and Mozart's Idomeneo and Requiem. The author draws on his extensive studies of original sources and his 30 years of performance experience with the award-winning early music ensemble Concentus Musicus. This collection of lectures, talks, and essays complements the author's earlier book on the interpretation of early music, Baroque

Music Today, which was published by Amadeus Press in 1988.
