

The Fault In Our Stars Who Died

George A. Gaskell

Cancer and Young Adult Literature Stephen M. Zimmerly, 2024-12-20 This collection critically presents arguments studying cancer as it is portrayed in Young Adult literature. The essays included offer insights into cancer and families, cancer and relationships, cancer and story-telling, and more.

Mortality in the novel "The Fault in Our Stars" by John Green. An exploration of the theme with reference to the cancer patients Hazel Grace and Augustus Waters Rahul Gautam, 2016-08-23 Essay from the year 2015 in the subject English Language and Literature Studies - Literature, , course: IB English, language: English, abstract: "The Fault In Our Stars" is a tragic love story that deals with the sufferings and deaths of cancer patients. John Green borrows the title of the story from Shakespeare's Julius Caesar, wherein Cassius says, "The fault dear Brutus is not in our stars but in ourselves that we are underlings." But contrary to what Cassius says, this story establishes the conundrum that we are helpless before our destiny. In Green's novel, Hazel and Augustus are lovers, not unlike "Antony and Cleopatra", and "Romeo and Juliet." But what separates them from the legendary lovers is the fact that they are born with cancer in their cells. Their story, although of great love and compassion, will not be written in the pages of history.

The Big Book of Exposures Kristen S. Springer, David F. Tolin, 2020-09-01 In cognitive behavioral therapy (CBT), exposures are the gold standard for treating anxiety related disorders, including obsessive-compulsive disorder (OCD), panic, and phobias. However, clients are often resistant or fearful when starting treatment, and, as a result, even therapists can develop "exposure phobia." In The Big Book of Exposures two anxiety specialists provide 400 creative, innovative, and easy-to-implement exposure exercises to help clients—and clinicians—move past their fears, energize treatment sessions, and improve client outcomes.

The Routledge Companion to Death and Literature W. Michelle Wang, Daniel Jernigan, Neil Murphy, 2020-12-07 The Routledge Companion to Death and Literature seeks to understand the ways in which literature has engaged deeply with the ever-evolving relationship humanity has with its ultimate demise. It is the most comprehensive collection in this growing field of study and includes essays by Brian McHale, Catherine Belling, Ronald Schleifer, Helen Swift, and Ira Nadel, as well as the work of a generation of younger scholars from around the globe, who bring valuable transnational insights. Encompassing a diverse range of mediums and genres - including biography and autobiography, documentary, drama, elegy, film, the novel

and graphic novel, opera, picturebooks, poetry, television, and more – the contributors offer a dynamic mix of approaches that range from expansive perspectives on particular periods and genres to extended analyses of select case studies. Essays are included from every major Western period, including Classical, Middle Ages, Renaissance, and so on, right up to the contemporary. This collection provides a telling demonstration of the myriad ways that humanity has learned to live with the inevitability of death, where “live with” itself might mean any number of things: from consoling, to memorializing, to rationalizing, to fending off, to evading, and, perhaps most compellingly of all, to escaping. Engagingly written and drawing on examples from around the world, this volume is indispensable to both students and scholars working in the fields of medical humanities, thanatography (death studies), life writing, Victorian studies, modernist studies, narrative, contemporary fiction, popular culture, and more.

The impact of Sick Lit on its target readership ,2022-06-27 Pre-University Paper in the subject Literature - General, , language: English, abstract: This paper focuses on a specification of the wide topic “Sick Lit”, which is the abbreviated form of “sick literature”. It is defined as literature featuring sick children, written for children. With literary works – such as *The Fault in Our Stars* by John Green – gaining popularity, questions may arise. The relevance of this paper is to determine the impact of such books on their target readership. Due to the impossibility of covering every book under this subgenre, specific literature has been picked. Aside from the coverage of the subgenre’s history, experts and readers are cited. Additionally, the psychological theory of adolescents’ understanding and perceptions of death is provided. After months of research, it was therefore possible to state that even multiple experts’ opinions differ. While some appeal to the authors’ responsibility or are concerned about the literature being harmful for its readers, others view “Sick Lit” as a form of education.
