**Eugen Weber**

**Supranational citizenship** Lynn Dobson, 2013-01-18 Can we conceptualise a kind of citizenship that need not be of a nation-state, but might be of a variety of political frameworks? Bringing together political theory with debates about European integration, international relations and the changing nature of citizenship, this book, available at last in paperback, offers a coherent and innovative theorisation of a citizenship independent of any specific form of political organisation. It relates that conception of citizenship to topical issues of the European Union: democracy and legitimate authority; non-national political community; and the nature of the supranational constitution. The author argues that citizenship should no longer be seen as a status of privileged membership, but instead as an institutional role enabling individuals' capacities to shape the context of their lives and promote the freedom and well-being of others. In doing so, she draws on and develops ideas found in the work of the philosopher Alan Gewirth.

Practising Citizenship and Heterogeneous Nationhood Marc Helbling, 2025-10-01 Switzerland likely has the most particular naturalization system in the world. Whereas in most countries citizenship attribution is regulated at the central level of the state, in Switzerland each municipality is accorded the right to decide who can become a Swiss citizen. This book aims at exploring naturalization processes from a comparative perspective and to explain why some municipalities pursue more restrictive citizenship policies than others. The Swiss case provides a unique opportunity to approach citizenship politics from new perspectives. It allows us to go beyond formal citizenship models and to account for the practice of citizenship. The analytical framework combines quantitative and qualitative data and helps us understand how negotiation processes between political actors lead to a large variety of local citizenship models. An innovative theoretical framework, integrating Bourdieu's political sociology, combines symbolic and material aspects of naturalizations and underlines the production processes of ethnicity.

Umweltdiskursen oder in Sansibar: Dieses Buch untersucht, wie sich Menschen Normen geben, diese hinterfragen und legitimieren. Die Beiträge machen deutlich, dass Normen nach wie vor in allen Lebensbereichen eine zentrale Rolle einnehmen. Zusammen mit Werten und Narrativen bilden sie normative Ordnungen, mit denen politische Autorität und die Verteilung von Rechten und Gütern legitimiert wird: im Strafrecht, bei der Kindererziehung, im Territorialstaat, in Fortschrittsdiskursen, im Anthropozän.
