The 12th Planet (Book I) Zecharia Sitchin,1991-05-01 Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

Summary of Zecharia Sitchin's The 12th Planet Everest Media,2022-06-13T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Old Testament is the source of the biblical verses quoted in The Twelfth Planet. The credibility of the Bible was shaken by the acceptance of Evolution, but if Man evolved, then he could not have been created all at once by a deity who premeditated him. #2 The Twelfth Planet is a narrative that attempts to

answer the specific questions of When, How, Why and Wherefrom. It explains how the solar system was formed, an invading planet caught into solar orbit, and Earth and other parts of the solar system brought into being.

Twelfth Plan Zecharia Sitchin, 2007-03-27 Over the years, startling evidence has been uncovered, challenging established notions of the origins of life on Earth—evidence that suggests the existence of an advanced group of extraterrestrials who once inhabited our world. The first book of the revolutionary Earth Chronicles series offers indisputable documentary evidence of the existence of the mysterious planet Nibiru and tells why its astronauts came to Earth eons ago to fashion mankind in their image. The product of more than thirty years of meticulous research, *The 12th Planet* treats as fact, not myth, the tales of Creation, the Deluge, the Tower of Babel, and the Nefilim who married the daughters of man. By weaving together the biblical narrative with Sumerian and Babylonian clay-tablet texts, it challenges the established notions of the origins of Earth and mankind, and offers a compelling alternative history and prehistory of both.

The Anunnaki Chronicles Zecharia Sitchin, 2015-09-17 An insider's look into the decades of research behind Zecharia Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of *The 12th Planet*, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with *The 12th Planet*, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge. Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures. We learn about the genesis of *The 12th Planet* in "The Book as a Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of *There Were Giants Upon the Earth*. Each piece includes an introduction by Sitchin's niece, offering context and insight into

Sitchin's passionate work. These introductions reveal the man behind the theories, a world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future.

Et's Are on the Moon and Mars C. L. Turnage, 2000 Is NASA hiding information concerning the Mars and moon missions? Why is the photographic evidence being suppressed? Forty-four rarely viewed official NASA photos, 20 illustrations and transcriptions of astronauts' sightings provide more evidence that ETs have inhabited, and continue to inhabit, both the moon and the planet Mars.

Earth changes are upon us with the climatic changes the world has experienced. Time seems to be speeding up for everyone. Gain a better understanding of why things are happening, of the Walk-in phenomenon, and what Starseeds are doing for the planet. UFO Gerardo Santos, 2012 The Book of Revelation tells of angels who fall from their heavenly estates. The Mayan calendar foretells the fall to some two hundred thousand years ago. The discord that followed sent repercussions to earth, arriving about nine thousand years ago when the first generation of the human race Israel emerged. By 4500 BC, an Agenda of a Snake from the fallen angels began to breed the biblical lines of Cain and Seth. Soon, the third generation emerged, and the conditions man calls good and evil began proliferating on the earth. Man's spirit commenced through the spirit of the angel Michael, but today it remains trapped within the human mind. Six thousand years ago, the angels Michael, Ra, Viracocha, and Ra Agenda came to earth to free man's spirit by attempting to prevent the creation of the human race. Unsuccessful, they left earth, bequeathing the Mayan calendar, which contains information about the five Ages, to the Mayan people. The Ra Agenda reemerged by 1948 as the mysterious UFO that defied the laws of reality. They have come to secretly assist mankind through the approaching shift in human consciousness scheduled to occur in the fifth Mayan Age of Aquarius in the year 2040.

Slave Species of the Gods Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA • Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species, first proposed by Zecharia Sitchin in *The 12th Planet* • Shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA • Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6,000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200,000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold--thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA--which explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with "god," concluding with the epic flood--a perennial theme of ancient myth--that wiped out the Anunnaki mining operations. Tellinger shows that, as humanity awakens to the truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe.

PALE SKIN, GIANTS, AND THE GREAT TRANSITION MILTON E. BRENER,2013-01-17 This book, Milton Brener's third on the subject of UFOs and extraterrestrials, is a giant leap. He delves into an analysis of much current scientific

evidence that appears to add credence to claims of early hybridization of the human race. It is an entirely new and novel approach, but a very readable and one. It is a challenge to readers to think constructively of the new and novel. It revolves around the coalescence beginning about fifty thousand years ago of several significant and scientifically proven occurrences. One is the beginning of the pale skin tone of Europeans. Brener systematically dismantles the accepted scientific explanation for it and drives home the fact that the only other living creatures with similar skin tone are the extraterrestrials, often known to many witnesses of high credibility as Nordics. Unlike other ETs, these Nordics look like us, though some are said to be remarkably tall and, also unlike others, leave the contactees with very positive feelings. Another major occurrence, the great transition, was the relatively sudden appearance of modern behavior, including artistic genius, timekeeping, and creation of musical instruments. The book is truly a tour de force.
