Mapping Chinese Investment in South Asia Rahul Nath Choudhury, 2023-04-25 This book attempts to capture the tremendous growth in Chinese investment in the South Asian region in the recent past. It makes country-wise analysis of the factors that led to the growth of Chinese investment in the region and explores the nature and role of such investment in expanding trade in the region. It also discusses in detail the Chinese infrastructure investment through Belt and Road Initiative (BRI). Interestingly, despite being the major investor in several countries, Chinese investment has been seen with some level of doubt. Apprehension about Chinese investment has forced countries to suspend China-funded projects or amend their investment policies. This book tries to address these crucial issues while exploring and analyzing the causes and effects of the same.

China in India's Neighbourhood Anita Sengupta, Priya Singh, 2024-04-30 This book explores the scope and extent of the growing Chinese influence in India's neighbourhood and its impact on India as well as on Asian power politics. Through theoretical narratives and detailed case studies, it examines Chinese bilateral relationships in the Indian neighbourhood and looks at the extent and significance of Chinese influence through the lens of strategic, economic and infrastructural arrangements and Chinese interventions in South, Southeast, and Central Asia. The book takes into account regional voices and domestic political compulsions in understanding what they make of the Chinese narrative and examines how and whether the narrative has changed in recent years through the Belt and Road Initiative (BRI) as an instrument of Chinese public diplomacy. The volume also discusses how domestic narratives and compulsions in the Indian neighbourhood remain significant and how these, in turn, would impact the trajectory of Chinese public diplomacy. Intertwined through all these themes is a focus on the extent to which these could become potential flashpoints for India. This book will be a useful resource for academics and researchers working on Asian geopolitics and geo-economics, Chinese foreign policy, Chinese politics, international relations of Asia, Asian dynamics and Asian studies.
