*Arkham* John Michael Greer,2023-10-31 A thrilling adventure on the other side of the Cthulhu Mythos: the stars are right at last... Twenty years have passed since the ancient war between the Great Old Ones and their bitter enemies swept Owen Merrill away from the world he thought he inhabited. As a seventh-degree initiate in the Starry Wisdom Church, he knows that the time is close when Great Cthulhu will awaken in his temple-tomb in drowned R'lyeh and end the war once and for all. Neither he nor any of the servants of the Great Old Ones is prepared, however, for the last desperate counterstroke of the Radiance—the unleashing of the Color out of Space, an alien form of matter that can end all life on Earth. As the final conflict looms, Owen flings himself on a last desperate quest to stop the descent of the Color out of Space. His journey will take him from the ruins of a New Jersey college town to a long-forgotten stair descending into a Virginia graveyard, and then to the Dreamlands and beyond. Helping him are a renegade Radiance negation team commander, a sorcerer out of archaic legend, the youngest of the Great Old Ones, and his own witch-daughter Asenath, but against him stands the massed might of the Radiance, a being of the outer voids summoned by the enemies of the Great Old Ones, and the Color out of Space itself...

*Life and Mortality in Ugaritic* Matthew McAfee, 2019-06-07 While topics such as death, funerary cult, and the netherworld have received considerable scholarly attention in the context of the Ugaritic textual corpus, the related concept of life has been relatively neglected. *Life and Mortality in Ugaritic* takes as its premise that one cannot grasp the significance of mwt (“to die”) without first having wrestled with the concept of ḥyy (“to live”). In this book, Matthew McAfee takes a lexical approach to the study of life and death in the Ugaritic textual corpus. He identifies and analyzes the Ugaritic terms most commonly used to talk about life and mortality in order to construct a more representative framework of the ancient perspective on these topics, and he concludes by synthesizing the results of this lexical study into a broader literary discussion that considers, among other things, the implications for our understanding of the first-millennium Katumuwa stele from Zincirli. McAfee’s study complements previous scholarly work in this area, which has tended to rely on conceptual and theoretical treatment of mortality, and advances the discussion by providing a more focused lexical analysis of the Ugaritic terms in question. It will be of interest to Semitic scholars and those who study Ugaritic in particular, in addition to students of the culture of the ancient Levant.

**The Necronomicon** Frederik Pohl, 2002 Although skeptics claim that the *Necronomicon* is a fantastic tome created by H.P. Lovecraft, true seekers into the esoteric mysteries of the world know the truth: the *Necronomicon* is the blasphemous tome of forbidden knowledge written by the mad Arab, Abdul Alhazred. Even today, after attempts over the centuries to destroy any and all copies in any language, some few copies still exist, secreted away. Within this book you will find stories about the *Necronomicon*, different versions of the *Necronomicon*, and two essays on this blasphemous tome. Now you too may learn the true lore of Abdul Alhazred.
