The Columbia Guide to Contemporary African American Fiction Darryl Dickson-Carr, 2005-12-06 In both the literal and metaphorical senses, it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis, caused in part by U.S. dependence on Arab oil, characterized an increasingly bleak economic situation. As Edward D.

Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone, and spirit of the seventies. He explores the decade's major political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies, and the hostage crisis in Iran. The seventies also gave birth to several social movements and the rights revolution, in which women, gays and lesbians, and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements as well as the issue of abortion introduced a new facet into American political life-the rise of powerful, politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster. He discusses how television programs such as *All in the Family* and *Charlie's Angels* offered Americans both a reflection of and an escape from the problems gripping the country.

Half in Shadow Shanna Greene Benjamin, 2021-04-01 Nellie Y. McKay (1930–2006) was a pivotal figure in contemporary American letters. The author of several books, McKay is best known for coediting the canon-making Norton Anthology of African American Literature with Henry Louis Gates Jr., which helped secure a place for the scholarly study of Black writing that had been ignored by white academia. However, there is more to McKay's life and legacy than her literary scholarship. After her passing, new details about McKay's life emerged, surprising everyone who knew her. Why did McKay choose to hide so many details of her past? Shanna Greene Benjamin examines McKay's path through the professoriate to learn about the strategies, sacrifices, and successes of contemporary Black women in the American academy. Benjamin shows that McKay's secrecy was a necessary tactic that a Black, working-class woman had to employ to succeed in the white-dominated space of the American English department. Using extensive archives and personal correspondence, Benjamin brings together McKay's private life and public work to expand how we think about Black literary history and the place of Black women in American culture.

Black Professional Women in Recent American Fiction Carmen Rose Marshall, 2015-01-24 The last three decades of the 20th century have marked the triumph of many black professional women against great odds in the workplace. Despite their success, few novels celebrate their accomplishments. Black middle-class professional women want to see themselves realistically portrayed by protagonists who work to achieve significant productivity and visibility in their careers, desire stability in their personal lives, aspire to accrue wealth, and live elegantly though not consumptively. The author contends

that most recent American realistic fiction fails to represent black professional women protagonists performing their work effectively in the workplace. Identifying the extent to which contemporary novels satisfy the readerly desires of black middle-class women readers, this book investigates why the readership wants the texts, as well as what they prefer in the books they buy. It also examines the technical and cultural factors that contribute to the lack of books with self-empowered black professional female protagonists, and considers *The Salt Eaters* by Toni Cade Bambara and *Waiting to Exhale* by Terry McMillan, two novels that function as significant markers in the development of contemporary black women writers' texts.

Diversity, Conformity, and Conscience in Contemporary America Bradley C. S. Watson, 2019-02-19 America is a nation that celebrates diversity and freedom of conscience. Yet, as Alexis de Tocqueville observed, democratic times often demand conformity. Nowadays, conformity might be enforced in the name of diversity itself, and go so far as to infringe on the rights of conscience, expression, association, and religious freedom. Americans have recently been confronted by this paradox in various ways, from federal health care mandates, to campus speech codes, to consumer boycotts, to public intimidation, to vexatious litigation, to private corporations dismissing employees for expressing certain political views. In this book, Bradley C. S. Watson brings together leading thinkers from a variety of disciplines to examine the manner and extent to which conformity is demanded by contemporary American law and social practice. Contributors also consider the long-term results of such demands for conformity for the health—and even survival—of a constitutional republic.

Hyper Sexual, Hyper Masculine? Brittany C. Slatton, Kamesha Spates, 2016-05-13 This book provides critical insights into the many, often overlooked, challenges and societal issues that face contemporary black men, focusing in particular on the ways in which governing societal expectations result in internal and external constraints on black male identity formation, sexuality and black 'masculine' expression. Presenting new interview and auto-ethnographic data, and drawing on an array of theoretical approaches methodologies, *Hyper Sexual, Hyper Masculine?* explores the formation of gendered and sexual identity in the lives of black men, shedding light on the manner in which these are affected by class and social structure. It examines the intersecting oppressions of race, gender and class, while acknowledging and discussing the extent to which black men's social lives differ as a result of their varying degrees of cumulative disadvantage. A wide-ranging and empirically grounded exploration of the intersecting roles of race, masculinity, and sexuality on the lives of black men, this volume will appeal to scholars across the social sciences with interests in race and ethnicity, gender and sexuality, social stratification and intersectionality.
