Una historia para el arte en la UBA Marta Penhos, Sandra Szir, 2020-11-01 El estudio de las artes en la Universidad de Buenos Aires lleva más de cien años de historia. Al principio, en los comienzos del siglo XX, se introdujo como materia suelta en las carreras de Letras, Historia y Filosofía. En 1924 se creó el Gabinete de Historia del Arte, que en 1940 se convertiría en Instituto. En 1963 se creó la carrera de Historia de las Artes (hoy llamada Artes), con Julio Payró como primer director. Este estudio propone un recorrido histórico por la disciplina, que aborda sus diferentes líneas de enseñanza, sus cambios curriculares y las trayectorias de sus profesores más destacados, así como los cambios de paradigma y los nuevos desafíos a los que se enfrenta en la actualidad.

Reforma y revolución Juan Sebastián Califa, 2016-06-01 Estamos ante un aporte original al conocimiento de un ciclo histórico que se inició en la Argentina con el golpe de Estado de 1955 y finalizó con la interrupción de la democracia constitucional de 1976, seguida por el genocidio que alcanzó a las fuerzas estudiantiles que este período vio nacer y florecer. Estos años, marcados por una gran conflictividad social que ocasionó una creciente inestabilidad política, conforman uno de los grandes debates actuales de la ciencia social argentina y suscitan en general un inmenso interés político, como lo pone en evidencia la creciente producción testimonial y periodística que se indaga por estas décadas. En ese contexto, este trabajo se enmarca dentro de la amplia literatura dedicada a estudiar la desafiante radicalización política volcada hacia la izquierda, que surcó distintivamente estos años.

Sensory Evaluation and Consumer Acceptance of New Food Products Ana Isabel de Almeida Costa, Maria Joao P Monteiro, Elsa Lamy, 2024-08-14 Large amounts of money, time and effort are devoted to sensory and consumer research in food and beverage companies in an attempt to maximize the chances of new products succeeding in the marketplace. Many new products fail due to lack of consumer interest. Answers to what causes this and what can be done about it are complex and remain unclear. This wide-ranging reference collates important information about all aspects of this in one volume for the first time. It provides comprehensive, state-of-art coverage of essential concepts, methods and applications related to the study of consumer evaluation, acceptance and adoption of new foods and beverages. Combining knowledge and expertise from multiple disciplines that study food sensory evaluation and consumer behaviour, it covers advanced methods including analytical, instrumental and human characterization of flavour, aspects of food processing and special research applications

of knowledge and methods related to consumers' evaluation of new food products. Researchers and professionals working in food science and chemistry are sure to find this an interesting read.

1968: Historia de un acontecimiento Álvaro Acevedo,2020-12-02 1968 es un año signado por dos palabras: protesta y cambio. Como nunca antes en la historia de la cultura, en los años sesenta el mundo asiste a una revolución de hábitos, consumos e ideas sobre el devenir de las sociedades. En un número apreciable de Estados nacionales, estallan movimientos sociales y estudiantiles, protestas, discursos, arengas y repertorios de inconformidad social y política. Colombia no fue la excepción de este acontecimiento cultural y político, leído también como un macroacontecimiento planetario con repercusiones aún por descubrirse. Estos hechos son el objetivo de este libro en la que el autor pretende reconstruir el acontecimiento de Mayo del 68 en el ámbito universitario y cultural colombiano con sus efectos en los años de 1971 y 1972.

Disruptive Voices and the Singularity of Histories Regna Darnell, Frederic W. Gleach,2019-11-01 Histories of Anthropology Annual presents diverse perspectives on the discipline's history within a global context, with a goal of increasing awareness and use of historical approaches in teaching, learning, and conducting anthropology. The series includes critical, comparative, analytical, and narrative studies involving all aspects and subfields of anthropology. Volume 13, *Disruptive Voices and the Singularity of Histories*, explores the interplay of identities and scholarship through the history of anthropology, with a special section examining fieldwork predecessors and indigenous communities in Native North America. Individual contributions explore the complexity of women's history, indigenous history, national traditions, and oral histories to juxtapose what we understand of the past with its present continuities. These contributions include Sharon Lindenburger's examination of Franz Boas and his navigation with Jewish identity, Kathy M'Closkey's documentation of Navajo weavers and their struggles with cultural identities and economic resources and demands, and Mindy Morgan's use of the text of Ruth Underhill's O'odham study to capture the voices of three generations of women ethnographers. Because this work bridges anthropology and history, a richer and more varied view of the past emerges through the meticulous narratives of anthropologists and their unique fieldwork, ultimately providing competing points of access to social dynamics. This volume examines events at both macro and micro levels, documenting the impact large-scale historical events have had on particular individuals and challenging the uniqueness of a single interpretation of the same facts.

La educación básica como derecho fundamental Sebastián Scioscioli,2017-11-23 El derecho a la educación sintetiza buena parte de las argumentaciones y de los desafíos vinculados con las condiciones de vigencia y exigibilidad de los derechos sociales. A lo largo de esta obra, se analizan y debaten diversas concepciones de la educación, como bien comercial y como servicio público, y se reafirma aquella que le otorga su carácter de derecho a la educación básica así como su

organización institucional en el marco del federalismo en la Argentina, a través del estudio de las bases constitucionales, el impacto de la jerarquización constitucional de los instrumentos internacionales de los derechos humanos, el desarrollo normativo legal histórico y presente, y la jurisprudencia nacional e internacional relevante en el tema. Esta obra resulta de interés tanto a académicos y a operadores del derecho cuanto a quienes desde las ciencias de la educación, la pedagogía o las ciencias sociales quieran profundizar el modo en que los procesos políticos y sociales que han atravesado a la educación quedaron plasmados normativamente, los contextos de producción de dichas normas, y sus implicancias en términos de reconocimiento, respeto y cumplimiento del derecho a la educación como derecho humano fundamental.

Perspectivas traductológicas desde América Latina Gertrudis Payás, Danielle Zaslavsky, 2023-08-02 Los textos que componen este volumen son producto del Tercer Congreso Bienal de la Red Latinoamericana de Estudios de Traducción e Interpretación (RELAETI) que organizó la Universidad Católica de Temuco (Chile) en octubre 2020, dando continuidad a los fructíferos congresos de México (Zacatecas, 2018) y Argentina (Córdoba, 2020), cuyos trabajos ha acogido también esta casa editorial. Las investigaciones que aquí se presentan cubren distintas épocas y lugares del continente hispanoamericano, y adoptan enfoques diversos: lingüístico-discursivo, histórico, social, filosófico, que atañen tanto a la traducción escrita como a la interpretación. *Perspectivas traductológicas desde América Latina* se aproxima a lo que podría caracterizar una traductología latinoamericana, menos centrada en las búsquedas de carácter teórico y más interesadas en explorar las temáticas que marcaron y siguen marcando la convivencia, a ratos amable y no pocas veces conflictiva, entre las distintas comunidades y lenguas del continente.

El pueblo tiene derecho a la belleza Larisa Mantovani, 2024-05-07 En Argentina entre 1910 y 1940 grandes cambios dieron lugar a la creación de establecimientos destinados a educar, exhibir y producir artes vinculadas a la industria. Buenos Aires fue una ciudad privilegiada en este proceso, en donde surgieron numerosas escuelas técnicas para obreras y obreros, se crearon salones nacionales de artes decorativas, se organizaron exposiciones comunales dedicadas a las artes aplicadas e industriales y se fundó el Museo Nacional de Arte Decorativo. Entre otros planes exitosos y también fallidos, estas instituciones formaron parte de los proyectos que diversas figuras del ámbito artístico e industrial buscaron impulsar. La historia del arte ha relegado a las artes decorativas por considerarlas una producción de menor relevancia. Sin embargo, a principios del siglo XX en Argentina surgió una preocupación sobre el lugar desde el cual las artes podrían acompañar un proyecto de país industrial y moderno: las artes aplicadas, entre la belleza y la utilidad, se mostraban como un producto ideal para esta tarea. Este libro muestra cómo fomentar el vínculo entre arte e industria iba de la mano de un deseo de progreso, a la vez que atiende a figuras poco exploradas como el lugar de los estudiantes, artesanos y obreros en la producción artística.

Historia de la arquitectura del Paraguay, 1537-1911 Ramón Gutiérrez,2010 A major critical study by noted architect and researcher Ramón Gutiérrez on the different phases of the history and evolution of the architectural patrimony of Paraguay spanning from primitive and colonial times to present days. The book includes a large collection of period photographs and color reproductions of the watercolors of the city of Asuncion done between 1855 and 1856 by French traveler Francisco Vincent of colonial and old Asuncion that graphically document how the original urban profile of Asunción has paid the tribute of the urban development and progress sacrificing its most characteristic traces. Author Gutiérrez describes the particular traces of the Paraguayan architectural topology in an introductory text Paraguay offers the best examples of street corridor and island block in Ibero-American architecture. The tirones (length) of streets of houses with galleries aligned for climate protection from the torrid sun or torrential rain generate an urban landscape integrated in a notable quality. The long ends of gable roofs protect the walls of estanteo (cane reinforced mud walls) or adobe from the degradation caused by the rain and offers the required shadow. But the galleries, as the antique open set of arches or portals and the soportales (colonnades) Mediterranean style, are the social and commercial life of the city...that give continuity to the vision of an integrated city--p. [9].
