Quit Like a Millionaire Kristy Shen, Bryce Leung, 2019-07-09 From two leaders of the FIRE (Financial Independence, Retire Early) movement, a bold, contrarian guide to retiring at any age, with a reproducible formula to financial independence A bull***t-free guide to growing your wealth, retiring early, and living life on your own terms Kristy Shen retired with a million dollars at the age of thirty-one, and she did it without hitting a home run on the stock market, starting the next Snapchat in her garage, or investing in hot real estate. Learn how to cut down on spending without decreasing your quality of life, build a million-dollar portfolio, fortify your investments to survive bear markets and black-swan events, and use the 4 percent rule and the Yield Shield--so you can quit the rat race forever. Not everyone can become an entrepreneur or a real estate baron; the rest of us need Shen's mathematically proven approach to retire decades before sixty-five.

How to Think Like a Millionaire and Get Rich Howard E. Hill, 1971

The Lazy Millionaire Marc Fisher, 2008 Work and work hard all of the time! Until you have no life... or, until you become ill! Unfortunately, many of us think that the fundamental building block towards financial freedom and success is hard labor! Perhaps it's because it is what we were taught by our parents or because that is what we learned in economics class. But what if Leonardo da Vinci was right? What if we could accomplish more--A LOT MORE--while doing less? Fisher validates Da Vinci's theory through logical example and recognized psychological laws. The author demonstrates that anyone can become a Lazy Millionaire in the 1 to 10 million dollar range within a 10-year period. Free yourself of the burden of work and all the obligations, real or perceived, that interrupt our daily lives. Enlightening case-studies and inspiring anecdotes will reveal how YOU too can work less and make more money while fulfilling your dreams!

Think Like A Millionaire Josh Grant, 2021-05-16 *Think Like A Millionaire* There are roughly 48.6 million millionaires in the world. A small fraction of these people came into their wealth by chance... for example, having family money. Most millionaires, however, were self-made...often using grit, determination, and hard work. The baseline? Unless you were born into money, you must work to make it. You may immediately start thinking to yourself, how? Saving? Investing? Creating a business? Yes, all of these are important, but there are so many more steps before these things. This book will detail those steps to help determine if you are millionaire material. First and foremost, you will learn to THINK like a millionaire. You will also learn to work and persevere through adversity to bring you closer to that million-dollar goal. This book exposes you to the principles of the rich, the code they abide by, and how they utilize this to create wealth. Not just any wealth, but generational wealth. It starts with your orientation. Then you can talk about saving, investing, and starting up a business. This book takes you through the grounds you need to cover to build substantial wealth. With each of these steps, you mold yourself, your ideas, and your entire life to walk the walk of a millionaire. No! You don't even need thousands of dollars to get started because this book is here to help you start from the ground up. You might think it's magic, but really, it's a simple formula to help you obtain your goals. Also included in this book are motivational stories of real everyday people like you and me, who could obtain the success, wealth, and respect they worked so hard for. So, what do you say? Are you ready to Think like a millionaire? By Josh Grant

How to Think Like a Millionaire Marc Fisher, Marc Allen, 2010-09-24 In this inspiring book, millionaires Mark Fisher and Marc Allen demonstrate that success is available to all who want it and who put their desires into action. Rather than waiting for a stroke of fate to change your situation, you can immediately begin to work with your most powerful ally — your own subconscious mind. When you do this by applying the specific and easy-to-learn principles presented here, success soon follows. By imprinting a personal success formula on your subconscious, you can program yourself to succeed, instead of failing by default or, even worse, never trying in the first place. In these pages, you'll learn how to weed out limiting beliefs and to plant positive new ones. You'll also discover other components of the millionaire mind-set, including why it's better to make quick decisions based on intuition and to stick to them rather than to vacillate, the importance of balancing persistence with flexibility, and how to effectively implement step-by-step strategies to move toward a chosen goal. Clear, simple, and wise, *How to Think Like a Millionaire* offers the tools you need to live the life of your dreams.
