

Quotes From The Raven Poem

Edgar Allan Poe

New Perspectives on Dystopian Fiction in Literature and Other Media Saija Isomaa, Jyrki Korpua, Jouni Teittinen, 2020-08-27 This collection of essays examines various forms of dystopian fiction in literature, television, and digital games. It frames the timely trend of dystopian fiction as a thematic field that accommodates several genres from societal dystopia to apocalyptic narratives and climate fiction, many of them examining the hazards of science and technology to human societies and the ecosystem. These are genres of the Anthropocene par excellence, capturing the dilemmas of the human condition in the current, increasingly precarious epoch. The essays offer new interpretations of classical and contemporary works, including the canonised prose of Orwell, Atwood and Cormac McCarthy, modern pop culture classics like *Battlestar Galactica*, *Fallout* and *Hunger Games*, and the work of Johanna Sinisalo, a pioneer of Finnish speculative fiction. From Thomas Pynchon to *Watership Down*, the volume's multifaceted approach offers fresh perspectives to those already familiar with existing research, but it is no less accessible for newcomers to the ever-expanding field of dystopian studies.

Edgar Allen Poe Ian Walker, 2013-01-11 This set comprises 40 volumes covering nineteenth and twentieth century European and American authors. These volumes will be available as a complete set, mini boxed sets (by theme) or as individual volumes. This second set compliments the first 68 volume set of Critical Heritage published by Routledge in October 1995.

The Presence of Camões George Monteiro, 2021-12-14 Of the great epic poets in the Western tradition, Luis Vaz de Camões (c. 1524- 1580) remains perhaps the least known outside his native Portugal, and his influence on literature in English has not been fully recognized. In this major work of comparative scholarship, George Monteiro thus breaks new ground, focusing on English-language writers whose vision and expression have been sharpened by their varied responses to Camões. Introduced to English readers in 1655, Camões's work from the beginning appealed strongly to writers. The young Elizabeth Barrett's *Camonean* poems, for example, inspired Edgar Allan Poe to appropriate elements from Camões. Herman Melville's reading of Camões bore fruit in his career-long borrowings from the Portuguese poet. Longfellow, T.W. Higginson, and Emily Dickinson read and championed Camões. And Camões as epicist and love poet is an *éminence grise* in several of Elizabeth Bishop's strongest Brazilian poems. Southern African writers have interpreted and reinterpreted Adamastor,

Camões's Spirit of the Cape, as both a symbol of a dangerous and mysterious Africa and an emblem of European imperialism. Recognizing the presence of Camões leads Monteiro to provocative rereadings of such texts as Dickinson's Master letters, Poe's Raven, Melville's late poetry, and Bishop's Questions of Travel.

The Cambridge Companion to Edgar Allan Poe Kevin J. Hayes, 2002-04-25 This collection of specially-commissioned essays by experts in the field explores key dimensions of Edgar Allan Poe's work and life. Contributions provide a series of alternative perspectives on one of the most enigmatic and controversial American writers. The essays, specially tailored to the needs of undergraduates, examine all of Poe's major writings, his poetry, short stories and criticism, and place his work in a variety of literary, cultural and political contexts. They situate his imaginative writings in relation to different modes of writing: humor, Gothicism, anti-slavery tracts, science fiction, the detective story, and sentimental fiction. Three chapters examine specific works: The Narrative of Arthur Gordon Pym, 'The Fall of the House of Usher', 'The Raven', and 'Ulalume'. The volume features a detailed chronology and a comprehensive guide to further reading, and will be of interest to students and scholars alike.
