

Short Opening Prayer For Event

John M. O'Loughlin, Francis Emmett Fitzgerald

The Master of Fate Samuel Ajibiye, 2024-05-08 The Master of Fate is a debut novella that narrates the story of Remilekun, an orphan, whose desire to fulfil his late mother's dream of getting education takes him to the university. He finds true love at the university with a good girl from a different tribe. Their true love stands firm against all stiff oppositions. However, their true love is short-lived as the newlyweds find themselves in the den of a notorious kidnapping gang, known as the Czar Boys, led by Hitler. The story reaches a nervy moment when the accidental killing of Hitler in police custody reveals state security complicity, a calculated move by the police intended to prevent the dreaded outlaw from letting the cat out of the bag. The story reveals the perverse nature of humans from corruption to injustice, from greed to obsession, and from betrayal to murder. The craftily-plotted story reaches a twisty conclusion that leaves the reader, wondering whom to ever trust again.

I Feel Love Rachel Nuwer, 2023-06-06 Longlisted for the PEN / E.O. Wilson Literary Science Writing Award Riveting.-- Bessel van der Kolk, MD, author of The Body Keeps the Score The unlikely story of how the psychedelic drug MDMA emerged from the shadows to the forefront of a medical revolution--and the potential it may hold to help us thrive. Few drugs in history have generated as much controversy as MDMA--or held as much promise. Once vilified as a Schedule I substance that would supposedly eat holes in users' brains, MDMA (also known as Molly or Ecstasy) is now being hailed as a therapeutic agent that could transform the field of mental health and outpace psilocybin and ketamine as the first psychedelic approved for widespread clinical use. In I Feel Love, science journalist Rachel Nuwer separates fact from fantasy, hope from hype, in the drug's contested history and still-evolving future. Evidence from scientific trials suggests MDMA, properly administered, can be startlingly effective at relieving the effects of trauma. Results from other studies point to its usefulness for individual and couples therapy; for treating depression, alcohol addiction, and eating disorders; and for cultivating personal growth. Yet scientists are still racing to discover how MDMA achieves these outcomes, a mystery that is taking them into the inner recesses of the brain and the deep history of evolution. With its power to dismantle psychological defenses and induce feelings of empathy, self-compassion, and love, MDMA may answer profound questions about how we became human, and how to heal our broken social bonds. From cutting-edge labs to pulsing club floors to the intimacy of the therapist's couch, Nuwer guides readers through a cultural and scientific upheaval that is rewriting our understanding of our

brains, our selves, and the space between.

Islamic Law Hunt Janin, André Kahlmeyer, 2015-01-09 The sharia is a set of traditional laws that define a Muslim's obligations to God and his fellow human beings. Westerners often misunderstand the nature of the sharia, born as it is of a complicated legal and academic tradition that may not always seem relevant to today's world. Written for those unfamiliar with Islam, this volume provides an accurate and objective assessment of the sharia's achievements, shortcomings and future prospects. It explores the fundamentals of Islam and traditional sharia laws. In addition, the sharia is discussed with respect to Ottoman law, puritanism and jihad. The sharia's relevance to today's world events is also explored. Among items provided in appendices are a commentary on a Western translation of the concept of jihad and an analysis of the sharia in 29 selected countries.

Musical Intimacies and Indigenous Imaginaries Byron Dueck, 2013-11 This book explores several musical styles performed in the vital aboriginal musical scene that has emerged in the western Canadian province of Manitoba. Focusing on fiddling, country music, and Christian hymnody, as well as step dancing and the pow-wow, author Byron Dueck advances a groundbreaking new performative theory of music culture that acknowledges tradition without losing sight of the dynamic negotiations that bring it into being.

The Toltec Way Susan Gregg, 2020-07-14 Achieve personal freedom using Toltec wisdom The gift of the Toltec is the ability to transcend ordinary human awareness and achieve personal freedom—the ability to choose how to act rather than react to the events in your life. The three Toltec Masteries of Awareness, Transformation, and Intent are the key to transcending your limitations and experiencing yourself as the creator of your life. Designed to make Toltec wisdom accessible and simple, this book is about change, transforming yourself, and the wildly empowering freedom of personal responsibility. Included in each chapter are exercises and guided visualizations, along with parable-like stories that are powerful sources of wisdom. Susan Gregg's new edition of The Toltec Way is part of the Essential Wisdom Library, a collection of books bringing sacred wisdom to modern readers. Refreshed with a new design and a new introduction by the author, along with a foreword by don Miguel Ruiz, The Toltec Way will introduce a new generation of readers to the power of Toltec wisdom.
