India's Geopolitical Gravity Alexandre Lambert, Faisal Ahmed, 2025-09-30 This book examines India's geopolitical gravity, and argues that the country is well positioned to play a game-changing role in the evolving world order. It begins by mapping India's political geography, and goes on to assess India's neighbourhood diplomacy, its pluri-vectoral strategic partnerships with major powers, and identifies the geo-strategic challenges. One of the key aspects herein is to evaluate India's emerging role in the Indo-Pacific architecture. Issues pertaining to QUAD, South China Sea, mega-regional blocs and Indian Ocean geo-economics are discussed. A very interesting aspect is to decipher the future of Asian geopolitics considering the role of the two Asian giants, India and China. Additionally, the book examines scenarios for an India-led stability pact for the Indian Ocean. In 2023, as host of both the G20 and SCO summits, India's geopolitical gravity culminates in its role as the key geopolitical pivot of contemporary international affairs. Maintaining non-alignment, and more recently, seeking strategic autonomy, have been at the core of India's foreign policy imperatives. Re-emerging as a great power, India is in a unique strategic position to become a center of gravity by providing a strategic rebalance between Western dominance and the Eastern aspirations. As such, the book is indispensable for learners of international relations, geopolitics, foreign policy, and Asian and Indian Studies. It also provides useful insights for policymakers, academics, think tanks, and readers with interest in India's future role in global geo-economic and geostrategic architecture.

Preferential Trade Agreements and Cultural Products Gilbert Gagné,2024-09-06 This book discusses the treatment of cultural products within international trade law, focusing on preferential trade agreements. Trade and culture intersect when cultural products are involved. These mainly encompass cinema, broadcasting, music, videos, and publishing, either in traditional or digital formats. As such products reflect the cultural identities of states, they have led to a debate as to whether, or the extent to which, they should be exempted from trade obligations. With multilateral negotiations in gridlock, states have increasingly turned to preferential trade agreements. Concurrently, digital technologies have revolutionized how cultural contents are created and distributed. The book analyzes the provisions relating to cultural products within trade agreements, as well as their relationship with the provisions and guidelines on cultural goods and services under the UNESCO Convention on Cultural Diversity. Drawing comparisons between states as to the treatment of cultural products in preferential trade agreements and considering the norms and provisions relating to cultural products under different regimes, the book offers a truly comprehensive overview of the evolution of the trade and culture debate. The book will be of interest to researchers in the fields of cultural products, trade agreements, digital technology, trade law, and cultural diversity.

A Force for Good John G. Taft, 2015-03-17 After the crisis of 2008, the social contract between the financial industry and everyone else was badly broken—perhaps, it seemed, irrevocably. Since then, banks have paid out billion-dollar settlements and Congress has passed some new laws, but a deeper rapprochement is still missing. John Taft has gathered some of the greatest financial minds of our time to explore how Wall Street can harness the same creative energy that invented credit default swaps and channel it towards the public good— in the form of a stable retirement system, investment strategies that protect the environment and reward responsible corporate behavior, and a financial industry with a culture of ethics, integrity and client focus. These perspectives, from a who's who of leaders in the field, offer a blueprint for a new kind of responsible finance and banking that secures the future for everyone. Contributors include: * Robert Shiller on financial capitalism and innovation * Charles D. Ellis on restoring ethical standards * Sheila Bair on regulatory reform * John C. Bogle and Mary Schapiro on rebuilding investor trust * Judd Gregg on long-term fiscal imbalances * Barbara Novick on the

retirement savings gap *David Blood on sustainable finance. With so much brainpower in the financial sector, the potential for change is limitless. A Force for Good is the call to action the industry sorely needs.
